GENERAL RULES SECTION
NEW JERSEY**

RULE 1. COVERAGES

A Standard and Basic Policy shall be provided. These policies shall afford Bodily Injury Liability, Property Damage Liability, Personal Injury Protection and Protection Against Uninsured/Underinsured Motorist Coverage if it is an automobile of the Private Passenger, Station Wagon, Utility or Camper Type, not used as a public or livery conveyance, or an automobile of the truck type with a load capacity of 2,000 pounds or less. For available limits for the Basic Policy, refer to Rule 18. Comprehensive and Collision Coverage will be available.

Refer to the policy contract for provisions applicable to Territorial Extent of Coverage, Coverage Definitions and Coverage Exclusions.

RULE 2. DETERMINATION OF RATING TERRITORY - ALL COVERAGES

The premium for automobile coverage is the premium for the rating territory in which the automobile is principally garaged. (Refer to Rate Section for Territory Definitions).

RULE 3. POLICY PERIOD - TERM RULE

- A. No policy may be written for a period longer than 12 months.
- B. The premium to be charged for policy terms not exceeding 12 months shall be as follows:
 - 1. 12 Month Policies - Charge the annual premium or minimum premium, whichever applies.
 - 2. 6 Month Policies - If a policy is written for a specified period of 6 months, the premium for the policy shall be 50% of the one year premium.
 - a. Rounding will be to the next higher dime after application of the appropriate policy term factor.
 - b. When policies are issued for a 6 month period with an effective date on the 29th, 30th or 31st of any months, the first such policy for a risk may be extended to run from the date of issuance to the first day of the calendar month following expiration of the policy. Premium for this extended coverage of 1 to 3 days may be waived.

NOTE: The 6 Month Policies term is only written at this time.

RULE 4. TORT THRESHOLD – BODILY INJURY AND UNINSURED/UNDERINSURED MOTORIST BODILY INJURY COVERAGE

The Tort threshold determines when an insured may sue for damages. The named insured must elect either:

- 1. a verbal threshold, or
- 2. zero threshold

When the zero threshold option is elected, regular tort law applies to non-economic loss. In no event may the Uninsured/Underinsured Motorist Coverage election be different than the Bodily Injury Liability Coverage.

Refer to the rating pages to determine the appropriate premium for each tort threshold option.

- B.** An additional charge of \$5.00 shall be made for each installment including the first payment, and the additional charge shall be included in each installment payment. For Electronic Fund Transfer payments made under GEICO AutoPay or a recurring payment plan, a \$1.00 charge applies in lieu of \$5.00. For payments made under a recurring credit card plan offered pursuant to a sponsorship agreement between the issuing bank and the Company or its affiliates, no installment fee charge shall apply.

NOTE: If the payment is received within 3 business days of the renewal effective date, the payment is presumed to have been mailed prior to the effective date and the policy will not expire. If the premium balance is prepaid, subsequent installment charges will be waived.

- C.** The premium paid to the company exclusive of the total installment charge shall never be less than the pro rata charge from the effective date of the policy to the due date of the next installment where additional installments are to be paid, or to expiration of the policy where no further installments are due.

The rule does not preclude the use of an installment payment plan which provides for deferring the due date of installments where the insurance, for which the installment is due, is under suspension on the original due date.

RULE 6. CANCELLATION AND CHANGES

A. CANCELLATION

All cancellations at the request of the insured or cancellations by the company shall be processed on a pro rata basis.

NOTE: Non Payment Cancellations: If the payment is received after the cancellation effective date but is postmarked prior to the cancellation effective date, the cancellation is void.

B. CHANGES

1. All changes requiring adjustments of premium shall be computed on a pro rata basis of the rate in effect when the coverage was issued, except changes in Primary or Secondary Classification Factors. Changes in the Primary and Secondary Classification factors during the term of the policy which causes a revision in the policy premium, shall be computed on a pro rata basis utilizing rates in effect at the inception of the policy.
2. When a vehicle or form of coverage is cancelled from the policy at the insured's request and then reinstated within thirty days, the premium for such reinstatement shall be the amount that was returned to the insured at the time of the cancellation.
3. If a vehicle is added or if a form of coverage is added for a policy written for less than one year, premium for the additional insurance shall be pro rata based on rates in effect at the time the change is made.
4. If as a result of any endorsement, amendment, cancellation or other policy change an additional or return premium in the amount less than \$2.00 is developed, no return need be made unless requested by the insured. If requested, the actual amount shall be returned.

RULE 7. SUSPENSION

- A.** All coverages except Comprehensive can be suspended.
- B.** Insurance may be suspended by endorsement in accordance with the following provisions provided the period of suspension is at least thirty (30) consecutive days:
 - 1. Insurance may be reinstated upon the named insured's request effective not earlier than receipt of such request by the company or any of its authorized representatives.
 - 2. The reinstatement endorsement shall not extend the policy beyond its original expiration date.
 - 3. Pro rata premium credit shall be granted for the period of suspension upon reinstatement. Companies can retain a minimum of ninety days premium calculated on a pro rata basis.
 - 4. If the policy expires during the period of suspension, the named insured shall be entitled to pro rata return premium in accordance with the foregoing provisions of this rule with respect to the minimum period of suspension and minimum premium retention by the company.
- C.** If liability and/or collision coverage are suspended, coverage for which separate premiums apply including comprehensive, uninsured/underinsured motorists coverage, basic personal injury protection, non-owned auto - may be continued in force without premium adjustment for these coverages.

RULE 8. RESERVED FOR FUTURE USE

RULE 9. RESERVED FOR FUTURE USE

RULE 10. RATES

All rates in this manual are annual premiums unless otherwise stated.

RULE 11. INCREASED LIMITS

- A.** No policy will be issued for limits below those required under the financial responsibility laws of the state.
- B.** Increased limits may be written for any type of automobile in accordance with the premiums and increased limit charges provided in the rate section.

Reference to "basic limits" in the rule sections of this manual refer to Bodily Injury and Property Damage financial responsibility limits.

**GEICO INDEMNITY COMPANY
GENERAL RULES SECTION
NEW JERSEY**

RULE 12. -13. RESERVED FOR FUTURE USE

RULE 14. SERVICE FEES

A. RETURNED CHECKS

A \$15.00 service fee may be charged for processing a check/draft dishonored for any of the following reasons:

1. Insufficient Funds;
2. Account Closed; or
3. Payment Stopped (unless by Company request).

RULE 15. EMERGENCY DEPLOYMENT DISCOUNT

If, as a result of a declared U.S. military emergency deployment, the insured private passenger vehicle is:

- A. Stored in a secured government parking facility - a 25% discount will apply to Comprehensive coverage. Other coverages will be subject to Rule 7. Suspension.
- B. Left in the care, custody and control of friends/relatives who own their own vehicle and have insurance - a 25% discount will apply to all coverages during the period of limited use.

RULE 16. CUSTOMIZED VEHICLES

Customized equipment installed in or upon the vehicle other than by the factory or an authorized dealer and not included in the purchase price of the vehicle is excluded under the Physical Damage coverages as stated in the policy unless the Customized Equipment Buy Back Endorsement is issued. The Buy Back Endorsement is based on the actual cash value of the customized vehicle equipment added to the value of the vehicle as provided below.

For vehicles that are model year 2010 and earlier, if the total value of customization is under \$1,000, do not increase the symbol. If the amount of customization is \$1,000 or more, determine the symbol for the vehicle in accordance with Private Passenger Rule 7 and increase the symbol by one for each \$2,000 or fraction thereof of customization starting at \$1,000 and up.

For vehicles that are model year 2011 and later and are assigned symbol 1 through 70, determine the charge for the customization separately by coverage. If the total value of customization is under \$1,000, do not increase the symbol. If customization is \$1,000 or more, determine the symbol for the vehicle in accordance with Private Passenger Rule 7. Add the total customization amount to the middle of the symbol cost new range for the current vehicle symbol to determine the new symbol. If the current symbol on the vehicle is a 71 to 75 or 98, and if the customization amount is under \$5,000, there will be no charge for the customization. For customization amounts of \$5,000 or more, increase the current symbol factor by adding the "each additional \$10,000" symbol relativity amount for each \$10,000 or fraction thereof, of customization.

***RULE 17. RATE CAPPING**

Renewal premium increases by policy will be capped at 5% by application of policy level factors, subject to and in accordance with this Rule. The cap will be calculated and applied as follows:

1. The premium is calculated for the renewal term (True Renewal Premium) and compared to the premium from the current term adjusted for changing policyholder characteristics such as changes in merit assignment, risk progression through rating plan, change to driver vehicle assignment or tier placement (Adjusted Current Term Premium).
2. If the True Renewal Premium exceeds the Adjusted Current Term Premium by more than 5%, the Final renewal premium increase will be capped at 5%. To compute the Final Renewal Premium, a factor is applied to each vehicle and coverage.

Factor = (Adjusted Current Term Premium * 1.05) / True Renewal premium

3. The cap factor is recalculated on each renewal. If the current term premium was a capped premium, the comparison done in Section 1 above is to the capped premium.
4. Adjusted Current Term Premium as well as the True Term Renewal Premium take into account renewal endorsements or policy changes that do not involve adding/replacing coverages or vehicles. If such endorsements occur mid-term, capping will be preserved.
5. Coverages or vehicles added or replaced at or subsequent to renewal are not eligible for capping.

RULE 1. DEFINITION/ELIGIBILITY

A private passenger automobile is:

- A. a motor vehicle of the private passenger or station wagon type, owned by an individual or owned jointly by relatives, or the insured and a resident of the insured's household.
- B. a utility vehicle of the pick-up, panel, or van body-type with a load capacity of 2,000 pounds or less, owned by an individual or owned jointly by relatives, or the insured and a resident of the insured's household, and used for personal and family pleasure, farm use, commuting, and business.

EXCEPTIONS: The following are not included in this definition:

- 1. a motor vehicle used as a public or livery conveyance (not written).
- 2. a utility vehicle that is customarily used for wholesale or retail delivery or commercial transportation of property.

RULE 2. PREMIUM DETERMINATION

A. BODILY INJURY AND PROPERTY DAMAGE

The liability premium for an automobile classified and rated as a Private Passenger automobile is provided in the Rate Section and is determined in accordance with the following:

- 1. Identify the territory which is the location where the automobile is principally garaged and is determined from the territorial definitions as they appear in the Rate Section.
- 2. Determine the limit for the coverage.
- 3. Determine Tort Threshold applicable to Bodily Injury Liability Coverage.
- 4. Determine Vehicle Liability Rating Factor in accordance with Private Passenger Rule 21.
- 5. Determine the Primary and Secondary Rating Factors in accordance with Private Passenger Automobile Classification Rule 3.
- 6. Determine the applicable surcharges in accordance with Rating Plan Rule 4.
- 7. Apply discounts in accordance with private passenger rules.
- 8. Apply the expense constant fee.
- 9. Divide by two for semi-annual policies.

B. BASIC PERSONAL INJURY PROTECTION COVERAGE

- 1. Personal Injury Protection Coverage must be purchased for all insured automobiles.
- 2. Identify the Territory which is the location where the automobile is principally garaged and is determined from the territorial definitions as they appear in the Rate Section.
- 3. Determine Vehicle Liability Rating Factor in accordance with Private Passenger Rule 21.
- 4. Determine the Primary and Secondary Rating Factors in accordance with Private Passenger Automobile Classification Rule 3.
- 5. Apply discounts in accordance with private passenger rules.
- 6. Apply the expense constant fee.
- 7. Divide by two for semi-annual policies.

NOTE: A named insured who is the owner and **ONLY** licensed driver in the household of two or more automobiles shall be charged 100% of the Standard Policy base rate for the first vehicle and 50% of the Standard Policy rate shall be charged for each additional vehicle.

RULE 2. PREMIUM DETERMINATION (Cont'd)

BASIC PIP OPTIONS

The following options are available for Basic Personal Injury Protection Coverage. Refer to the policy for detailed descriptions of this coverage and the corresponding options.

a. Deductibles

A statutory \$250 deductible per accident applies to medical expense benefits. This deductible may be increased as shown on the rating pages.

b. Limits

A statutory limit of \$250,000 per accident applies. This limit may be decreased as shown on the PIP Deductible rating pages.

c. Deletion of Benefits Other Than Medical Expense

All benefits other than medical expense may be deleted. Refer to the Deductible by Benefit Option table on the rating pages for the appropriate rating factor. Added Personal Injury Protection Coverage is not available when this option is selected.

d. Medical Expense Benefits as Secondary Coverage

The insured may elect to have a health insurance policy provide primary coverage for the payment of medical expense benefits. Basic Personal Injury Protection Coverage provides secondary benefits when this option is selected. Refer to the rating pages for the appropriate rating factor.

e. Extended Medical Expense Benefits Coverage

Basic Personal Injury Protection Coverage automatically includes Extended Medical Expense Benefits Coverage which provides limited coverage to insured's while occupying non-owned commercial vehicles other than private passenger-type autos. This coverage consists of medical expenses and funeral expenses. The limit for the medical expenses portion of Extended Medical Expense Benefits Coverage is \$1,000. This limit may be increased to \$10,000 for an additional premium charge as shown on the rating pages. The aggregate \$10,000 limit applies per persons per accident. The limit for the funeral expense portion of Extended Medical Expenses Benefits Coverage is \$1,000 and may not be increased.

C. ADDED PIP PACKAGE OPTIONS - Higher Limits as prescribed by the New Jersey Automobile Reparation Reform Act and, except as provided below, may be afforded where Personal Injury Protection has been modified by any deductible or limits.

The Added PIP Package Options are not subject to modification under the provisions of any rating plan or other manual rule, except Restraint Discount.

Benefits are maximum benefits on a per person, per accident basis, rather than a per year basis. For a complete description of coverage within each package, including weekly income benefits, essential service benefits and death benefits, refer to the policy and the Added PIP Package Options — Higher Limits Endorsement.

2. Benefits indicated above are maximum benefits on a per person, per accident basis.

Added PIP Named Insured and Resident Relative Coverage

The selected Added PIP package may be extended to include coverage for resident relatives at the option of the named insured. If the named insured elects to have resident relative coverage, the Added PIP- Named Insured and Resident Relative Coverage will be applicable. Rates for this option will be as shown in the Rate Section of the manual.

D. COMPREHENSIVE AND COLLISION

The premium for the selected deductibles for an automobile classified and rated as a private passenger automobile is provided in the Rate Section and is determined in accordance with the following:

1. Identify the Territory which is the location where the automobile is principally garaged and is determined from the territorial definitions as they appear in the Rate Section.
2. Determine the deductible for the coverage.
3. Determine the Private Passenger Automobile model year and symbol.
4. Determine the Primary and Secondary Rating Factors in accordance with Automobile Classification Rule 3.
5. Determine the applicable surcharges in accordance with Rating Plan Rule 4.
6. Apply discounts in accordance with private passenger rules.
7. Apply the expense constant fee.
8. Divide by two for semi-annual policies.

RULE 2. PREMIUM DETERMINATION (Cont'd)

**E. UNINSURED MOTORIST INSURANCE (INCLUDING UNDERINSURED MOTORIST) AND
UNINSURED/UNDERINSURED MOTORIST PROPERTY DAMAGE**

Protection Against Uninsured/Underinsured Motorists Insurance shall be afforded under every automobile liability policy issued or delivered to the owner of a motor vehicle principally used or principally garaged in the State of New Jersey. The rate for this coverage is provided in the rate section and is determined in accordance with the following:

1. Identify the territory which is the location where the automobile is principally garaged and is determined from the territorial definitions as they appear in the Rate Section.
2. Determine Tort Threshold applicable to Uninsured/Underinsured Bodily Injury..
3. Apply discounts in accordance with private passenger rules.
2. 4. Divide by two for semi-annual policies.

NOTE: These coverages are available at limits not to exceed the bodily injury and property damage liability limits provided by the policy. Uninsured/Underinsured Motorist Property Damage is subject to a \$500 deductible for each accident.

F. EMERGENCY ROAD SERVICE

1. The Emergency Road Service premium is found on the private passenger rate pages in the rate section and is determined in accordance with the following:

- a. Identify the territory which is the location where the automobile is principally garaged and is determined from the territorial definitions as they appear in the Rate Section.
- b. Identify the age of the vehicle.
- c. Determine if the vehicle is rated for liability only or full coverage as defined below:
Full Coverage - any vehicle carrying either Comprehensive and/or Collision coverage.
- d. Apply discounts in accordance with private passenger rules.
- e. Divide by two for semi-annual policies.

2. The definition of "age" is as follows:

<u>Age</u>	<u>Definition</u>
1	All vehicles of the current model year.
2	All vehicles of the first preceding model year.
3 through 8	The appropriate age applies for the 2 nd through 7 th preceding model years, respectively.
9	All other preceding model years.

NOTE: For the purpose of this definition, the current model year shall change effective October 1, of each calendar year regardless of actual introductory dates of the several makes and models.

RULE 2. PREMIUM DETERMINATION (Cont'd)

G. RENTAL REIMBURSEMENT

1. Available on private passenger vehicles at limits shown below:

<u>Daily Limit</u>	<u>Aggregate Limit</u>
\$30	\$900
\$50	\$1500

2. Not available without Comprehensive Coverage.
3. The rates for this coverage are found in the rate section and are determined in accordance with the following:
- a. Identify the territory which is the location where the automobile is principally garaged and is determined from the territorial definitions as they appear in the Rate Section.
 - b. Apply discounts in accordance with private passenger rules.
 - c. Divide by two for semi-annual policies.

***H. MULTI-RISK PHYSICAL DAMAGE COVERAGE**

Multi-Risk Physical Damage Coverage consists of \$250 deductible mechanical breakdown coverage, combined with comprehensive and collision coverage at deductible specified on the policy. Refer to the Multi-Risk (MBI) class code listing in the Symbol section for applicable MBI class codes. If there is not an MBI class code on the listing for the applicable vehicle, then use the MBI class code for a comparable model in the prior model year.

- 1. Comprehensive and Collision are rated in accordance with Section B of Rule 2.
- 2. The mechanical breakdown portion of this Multi-Risk Physical Damage Coverage is a flat charge based on the following criteria.
 - a. Age of the auto based on the date the vehicle was purchased new.
 - b. Class of the vehicle
 - c. Model Year of the vehicle.
- 3. Refer to the Rate Section to determine the rate. For subsequent model years not displayed on the rate pages, apply a factor of 1.05 for each subsequent model year. For model years 1995 and prior, the rates for age 8 and later are the same as those for age 7.
- 4. Apply discounts in accordance with private passenger rules.
- 5. Divide by two for semi-annual policies.

**RULE 3. PRIVATE PASSENGER AUTOMOBILE BODILY INJURY, PROPERTY DAMAGE,
PERSONAL INJURY PROTECTION, COMPREHENSIVE, AND COLLISION
CLASSIFICATIONS**

The rate for an automobile owned by an individual or owned jointly by relatives, or the insured and a resident of the insured's household, classified and rated as a private passenger automobile shall be applied as follows:

A. PRIMARY CLASSIFICATION

The age, gender, marital status of the drivers, and the use of the automobile shall be obtained in order to classify the automobile in accordance with the Primary Class Factors which are displayed at the end of the Private Passenger Rules Section.

B. SECONDARY CLASSIFICATION

1. Determine whether the automobile is a Single Car or part of a Multi-Car risk.
2. Classify the automobile according to the driving records of the operators as provided under the Rating Plan Rule.
3. Determine the appropriate factor to be multiplied by the Primary Rating Factor using the Secondary Rating Factor table displayed at the end of the Private Passenger Rules Section.

NOTES:

Any changes in the Primary or Secondary Classification Factors during the term of the policy which causes a revision in the policy premium should be applied on a pro-rata basis utilizing rates in effect at the inception of the policy.

Requests for reduction of the policy premium because of the changed age of any driver will be handled by effecting a pro rate cancellation and reissuing the policy.

Regular operators who are added or deleted during the term of the policy will have points attributable to them under the Initial and Subsequent Rating provisions added or deleted concurrently.

***C. DRIVER DEFINITIONS**

1. **Married** - means an individual living with his/her spouse or civil union partner, as well as a person who is a widow/widower. For policies written prior to October 14, 2005 the definition of married includes a person who has custody of a child resident of the household under the age of 18.

NOTE: The "living with spouse or civil union partner" requirement does not apply to military customers who are temporarily separated from their spouses/partners due to military duty assignment.

2. **Residing In** - An individual who is a resident in the same household as the applicant; however, an individual in active military service with the Armed Forces of the U.S.A. shall not be considered a driver of the automobile unless such individual customarily drives the automobile. In addition, a Young Single Male Driver 24 years of age or less or a Young Single Female Driver 24 years of age or less who is absent from the household while attending a recognized college or educational institution more than 100 miles by road from the location where the automobile is principally garaged or kept will not be rated as a driver of the automobile unless they customarily drive the automobile.

***RULE 3. PRIVATE PASSENGER AUTOMOBILE BODILY INJURY, PROPERTY DAMAGE,
PERSONAL INJURY PROTECTION, COMPREHENSIVE, AND COLLISION
CLASSIFICATIONS (Cont'd)**

D. USE OF THE AUTOMOBILE DEFINITIONS

1. **All Use Other than Business** - The automobile is not used in business and is driven to and from work, for personal use, or the automobile is principally garaged on a farm or ranch and is not used in any occupation, profession or business other than farming.

NOTE: The phrase "driven to and from work" shall be deemed to include use in carpools, other share-the-ride arrangements or driving part way to and from work, such as to a railroad or bus depot, whether or not the car is parked at the depot during the day. It shall also be deemed to include use to and from school. The phrase "personal use" shall be deemed to include everyday driving not included in business use or driving to and from work.

2. **Business** - The use of the automobile is required by or customarily involved in the duties of the applicant or any other person customarily operating the automobile in his occupation, profession or business other than driving to or from his principal place of occupation, profession or business.

NOTE: Each automobile shall be classified on the basis of estimated annual mileage as follows:
Mileage Classifications Estimated Annual Mileage

Long	Over 7,500
Short	7,500 or less

E. ALTERNATE USE OF THE AUTOMOBILE

This rule shall be applied to multi-car policies where the insured indicates that the vehicles listed on the policy are driven interchangeably, either for commuting or business.

1. Determine the total weekly number of days and miles the vehicles are driven for commuting or business.
2. If the number of days driven weekly does not exceed six, develop class based upon total commuting or business mileage and assign that class to the vehicle used the most. If vehicles are used equally for commuting or business, assign class to that vehicle developing the highest premium. Assign pleasure use classification to the remaining vehicle.

NOTE: This rule will not apply if the one-way driving distance for both vehicles is not the same or the total weekly number of days driven exceed six.

RULE 3. PRIVATE PASSENGER AUTOMOBILE BODILY INJURY, PROPERTY DAMAGE, PERSONAL INJURY PROTECTION, COMPREHENSIVE, AND COLLISION CLASSIFICATIONS (Cont'd)

F. NAMED DRIVER PHYSICAL DAMAGE EXCLUSION – COMPREHENSIVE AND COLLISION COVERAGES

The Comprehensive and Collision coverage premiums on a specified automobile to which the named driver exclusion endorsement applies shall not reflect the driving record or rating classification of the named excluded driver.

The Bodily Injury Liability, Property Damage Liability, and Personal Injury Protection coverage premiums on any such automobile shall be determined in accordance with the Premium Determination, Classification and Tier Rating Plan rules of the manual and reflect the driving record and rating classification of such driver, as appropriate, in accordance with those rules.

NOTES:

1. A "named excluded driver" means a driver in the household of the named insured who is specifically identified in the endorsement as a person whose operation of a specific automobile under the Family Automobile Policy at the time of an accident would result in the denial of a physical damage claim for that automobile.
2. This exclusion applies to all optional physical damage coverages.
3. If there are multiple drivers excluded from an automobile, the factor will be applied only one time in the rating of the premium for that automobile.

RULE 4. RATING PLAN

A. ELIGIBILITY

1. Eligible Vehicles

All private passenger and utility automobiles having four wheels which are classified and rated as private passenger automobiles and qualify for coverage under the Family Automobile Policy.

2. Applicable Coverages

Bodily Injury, Property Damage, Basic Personal Injury Protection, Comprehensive and Collision.

B. DEFINITIONS

1. Experience Period

The Experience period shall be:

- a. For New Business, the three year period immediately preceding the policy effective date;
- b. For Renewals, the 36 months ending 90 days prior to the policy effective date.

2. Driving Record Points

a. Motor Vehicle Convictions

Points shall be assigned in accordance with the following for motor vehicle convictions for which the applicant or any operator of the vehicle has been convicted during the experience period.

**GEICO INDEMNITY COMPANY
PRIVATE PASSENGER RULES SECTION
NEW JERSEY**

RULE 4. RATING PLAN (Cont'd)

- (1) Four points shall be assigned for the first conviction and six points shall be assigned for each additional conviction of (per driver):
 - (a) Homicide or assault arising out of the operation of a motor vehicle
 - (b) Any felony including theft, involving a motor vehicle
 - (c) Hit and run or leaving the scene
 - (d) Fleeing or attempting to elude a Police Officer
 - (e) Transporting illegal alcohol, liquor or drugs
- (2) Three points shall be assigned for the first conviction and four points shall be assigned for each additional conviction of (per driver):
 - (a) Racing
 - (b) Driving while intoxicated or under the influence of alcohol or drugs or refusal to take the intoxication test under implicit consent
 - (c) Reckless driving
- (3) Three points are assigned for the first and each additional conviction of (per driver):
 - (a) Drinking while driving
 - (b) Driving with a suspended license
 - (c) Careless driving
 - (d) Open container
- (4) Two points shall be assigned for the second and each subsequent conviction (per driver) for speeding less than 15 miles over the speed limit.
- (5) One point shall be assigned for the first and second minor conviction and two points for each additional minor conviction (per driver) not listed above.

EXCEPTION: Any conviction under (4 or 5) above as a result of an accident is not chargeable under both the accident and conviction portions of this rule. The charge shall be made only in the category resulting in the higher penalty point assignment.

b. Accidents

One point shall be assigned for the first and four points for each subsequent accident (per driver) involving the applicant, or any operator of the insured automobile, while operating any private passenger type automobile (except that no points shall be assigned under the applicant's policy for accidents incurred by an operator demonstrated to be a named insured or a principal operator of an automobile insured under a separate policy in the companies) resulting in bodily injury or death, or damage to property (including his own) in excess of \$500 for dates of loss occurring before June 9, 2003 or \$1,000 on and after that date,

NOTE: Any accident involving a driver insured under the policy which resulted in a payment by the insurer of an amount greater than or equal to the threshold amount shown above, and for which the driver is at least proportionately responsible based on the number of vehicles involved. A driver is proportionately responsible if 50 percent responsible.

**GEICO INDEMNITY COMPANY
PRIVATE PASSENGER RULES SECTION
NEW JERSEY**

RULE 4. RATING PLAN (Cont'd)

EXCEPTIONS: No points shall be assigned for an accident if the insured demonstrates that the accident occurred under the following circumstances:

- (1) Automobile lawfully parked; or
- (2) Applicant or other operator or owner is reimbursed by, or on behalf of, a person responsible for the accident or has judgment against such person; or
- (3) Automobile of applicant or other operator struck in rear by another vehicle and the applicant or other operator was not convicted of a traffic violation in connection with the accident; or
- (4) Operator of the other automobile involved in such accident was convicted of a traffic violation and the applicant or other operator was not convicted of a traffic violation in connection therewith; or
- (5) Automobile operated by applicant or other operator was struck by a hit-and-run driver, if the applicant or other operator reports the accident to proper authority within 24 hours; or
- (6) Accident involved damage by contact with animals or fowl; or
- (7) Physical Damage losses other than Collision; or
- (8) Accidents occurring as a result of the operation of an automobile in response to an emergency if the operator at the time of the accident was (1) responding to a call to duty as a paid or volunteer member of any Police or Fire Department, First Aid Squad, or of any law enforcement agency, or (2) was performing any other governmental function in a public emergency.

NOTE: This exception does not include an accident occurring after the emergency situation ceases or after the private passenger automobile ceases to be used in response to such emergency.

C. DRIVING RECORD SUB-CLASSIFICATIONS

The number of "Driving Record Points" accumulated during the experience period shall determine the sub-classification to be applied in accordance with the table shown under Rule 3.B. at the end of the Private Passenger Rules Section.

D. MISCELLANEOUS SURCHARGE

Two points shall be assigned for any operator for whom a twelve-month driving record cannot be verified by a government bureau of motor vehicles. This surcharge shall remain in effect for as long as the driving record remains unverifiable, but shall be removed at the first renewal after the driving record becomes verifiable. This rule does not apply to U.S. military personnel who previously held valid U.S. driver's licenses which have expired due to their military service.

E. MID-TERM ENDORSEMENT

No policy shall be endorsed mid term to effect a change of driving sub-classification, except when adding or deleting a driver.

F. ADMINISTRATION OF THE PLAN

Information necessary to assign the proper driving record sub-classification shall be determined from any one or a combination of the following:

1. Companies' own records; or

**GEICO INDEMNITY COMPANY
PRIVATE PASSENGER RULES SECTION
NEW JERSEY**

RULE 4. RATING PLAN (Cont'd)

2. Motor Vehicle records; or
3. Applicant's statements or insured's statements on self-reporting forms; or
4. C.L.U.E.

G. FIVE YEAR GOOD DRIVING DISCOUNT

Sub-Class A will be assigned to all eligible vehicles under the policy if all of the following criteria are met:

1. No points are currently assignable to that vehicle;
2. One of the principal operators under the policy has at least eleven years of driving experience; and
3. No operator assigned to the vehicle has received a conviction for a violation described under Private Passenger Rule 4.B or has been involved in an accident during the five year period immediately preceding the date of application for new business or the effective date of the policy for renewals which would have resulted in a point or points being assigned under the rating plan.

Sub-Class B will be assigned to all eligible vehicles under the policy if all of the following criteria are met:

1. No points are currently assignable to that vehicle;
2. One of the principal operators under the policy has six through ten years of driving experience; and
3. No operator assigned to the vehicle has received a conviction for a violation described under Private Passenger Rule 4.B or has been involved in an accident during the five year period immediately preceding the date of application for new business or the effective date of the policy for renewals which would have resulted in a point or points being assigned under the rating plan.

***RULE 5. TWO OR MORE AUTOMOBILE CREDIT**

The appropriate Secondary Rating Element shown in Rule 3 shall be reduced by 15% if more than one private passenger automobile is owned by an individual or owned jointly by relatives, or the insured and a resident of the insured's household and two or more such automobiles are:

1. Currently insured in the same policy and located at the same principal garaged location; or
2. Currently insured by relatives at the same principal garaged location who:
 - a. are insured in the same policy at the time a driver is moved to a separate policy on or after 05/31/2012; and
 - b. continuously reside at the principal garaged location as the policy from which the driver is removed; and
 - c. are continuously written by the GEICO Companies

"Insured in the same policy" means any automobile is insured for any of the following: Bodily Injury Liability, Property Damage Liability, Basic Personal Injury Protection, Comprehensive and Collision insurance.

For Rental Reimbursement or Emergency Road Service coverage, apply a factor of .80 to the applicable rate reflected in the Rate Section if the discount applies.

RULE 6. RESERVED FOR FUTURE USE

RULE 7. SYMBOL ASSIGNMENT

1. Refer to the Symbol listing in the Symbol Section for the applicable symbol.
2. If no symbol is available in the Symbol listing, use the following procedure to determine the symbol.
 - a. If the Symbol listing displays a symbol for the prior model year of the same or comparable vehicle, use the prior model year symbol. Use the transition rule for 2011 vehicles that are assigned a symbol based on a comparable 2010 vehicle. The transition rule can be found at the end of the private passenger section under Rule 7.
 - b. If the Symbol listing does not display a symbol for the prior model year of the same or comparable vehicle, assign a symbol based on the cost new of the vehicle using the Cost New chart located in the rate section.

**GEICO INDEMNITY COMPANY
PRIVATE PASSENGER RULES SECTION

RULE 8. MODEL YEAR FOR COMPREHENSIVE AND COLLISION COVERAGES

- A. The model year of the auto is the year assigned by the auto manufacturer.
- B. Rebuilt or Structurally altered autos - the model year of the chassis determines the model year of the auto.

RULE 9. CALCULATING COLLISION PREMIUMS NOT DISPLAYED ON RATE PAGES

A. 1975 AND PRIOR MODEL YEAR AUTOMOBILES WITH LIST PRICES ABOVE \$10,000

Five (5) percent of the applicable Symbol 7 premium shall be added to such premium for each one thousand (\$1,000) dollars or fraction thereof in excess of ten thousand (\$10,000) dollars. To determine the Collision premium (for any coverage or territory) for automobiles whose list prices are above \$10,000, and therefore beyond 7 which is the highest symbol:

- 1. For automobiles built in the U.S., use Original F.O.B. list price which must include Federal Tax on all 1938 or later models.
- 2. For specially-built automobiles, use Original Cost New.
- 3. For imported automobiles, use Original Cost New in U.S.

B. 1976 - 1980 MODEL YEAR AUTOMOBILES

Automobiles with list prices above \$30,000

Determine the model year and increase the applicable Symbol P rate by 5% for each one thousand (\$1,000) dollars or fraction thereof in excess of thirty thousand (\$30,000) dollars.

***C. 1990 - 2010 MODEL YEAR AUTOMOBILES**

1. Symbol W Vehicles above \$140,000

For up to the first \$10,000 above a cost new of \$140,000, apply the appropriate factor to the symbol and model year rate as described in the Rate Pages.

2. Model Years Not Shown on Rate Pages

Apply a factor of 1.05 for each subsequent model year.

***D. 2011 AND LATER MODEL YEAR AUTOMOBILES**

1. Symbol 98 Vehicles above \$150,000

***RULE 12. NAMED NON-OWNER POLICY**

(For individuals who do not own an Auto)

A. LIABILITY AND PERSONAL INJURY PROTECTION COVERAGE

Charge full premium that would apply if such individual owned an auto. Do not apply Vehicle Liability Rating.

B. UNINSURED MOTORISTS INSURANCE

Refer to the Rate pages. Charge the "first auto" Uninsured Motorists rate applicable to owners.

C. COMPREHENSIVE AND COLLISION

Charge full premium that would apply if such individual owned the auto, using a symbol 20, age 2 for the two digit symbol or symbol B, age 2 when the one digit symbol is applied.

Attach the named non-owner coverage endorsement.

RULE 12.A. EXTENDED NON-OWNED AUTOMOBILE COVERAGE

Family Automobile Coverage may be extended at the rates specified below to cover:

- A.** the named insured, as defined in the Policy or
- B.** a relative, as defined in the Policy

for their liability arising out of the use by them or by others of any automobile not owned by the named insured or any relatives.

Coverage shall include any person or organization legally responsible for the use by the named individual of any automobile not owned or hired by such person or organization. With respect to the liability coverages of the policy, the insurance applies to each such individual and to the spouse thereof.

Exclusion - This extended insurance shall not apply:

- A.** to any automobile owned by the named individual or a member of the same household other than a private chauffeur or domestic servant of the named individual;
- B.** to any automobile while used in the automobile business;

NOTE: This exclusion may be eliminated if the named individual, for whom this extended insurance is afforded, is employed in an automobile business which is not covered under a garage payroll policy. The rate for this extended insurance shall be 170% of the Private Passenger initial premium for the territory in which the risk is located in lieu of the rate specified below.

- C.** to any automobile while used in a business or occupation of the named individual for whom this extended insurance is afforded except an automobile operated or occupied by the named individual, private chauffeur or domestic servant;
- D.** with respect to relatives, to bodily injury to any fellow employee of the named individual injured in the course of his employment if such injury arises out of the use of an automobile in the business of his employer.

RULE 12A. EXTENDED NON-OWNED AUTOMOBILE COVERAGE (Cont'd)

RATES – BODILY INJURY LIABILITY, PROPERTY DAMAGE LIABILITY, AND UNINSURED MOTORISTS

If automobiles are furnished for the regular use of the named insured or a relative and there is no insurance afforded for the protection of the named insured or such relative on a direct primary basis for automobile bodily injury, property damage and uninsured motorist liability insurance, the rate for this extended coverage shall be 50% of the specified car rate applicable to the highest rated automobile furnished for such use.

In all other instances, the rate for this extended coverage shall be the same as the ENOA Federal rates below.

EXCEPTION: If the named insured or a relative is furnished an automobile for regular use in the business of the United States Government or the Government of the District of Columbia, the basic limits rates for the period of coverage shall be determined from the schedule below, provided coverage is limited by attachment of endorsement form "Federal Employees Using Automobile in Government Business" or "District of Columbia Employees Using Automobile in Government Business", as is appropriate.

- o **Bodily Injury** - Refer to rate section for named insured rate. For relatives, charge 200% of the named insured rate.
- o **Property Damage** - Refer to rate section for named insured rate. For relatives, charge 200% of the named insured rate.
- o **Uninsured Motorists** - Charge 25% of the specified car rate applicable to the highest rated automobile furnished for such use.

RATES - OTHER

ENOA rates are flat rates, not subject to modification under the provisions of any rating plan or other manual rule, with the exception of the Restraint Discount and Military Discount.

RULE 13. RESTRAINT DISCOUNTS

All vehicles rated as private passenger automobiles which are equipped with an Air Bag Restraint System will be subject to the following discounts with respect to the rating of Personal Injury Protection Coverage:

Driver Side Air Bag	15%
Full Front Seat Air Bag	30%

**GEICO INDEMNITY COMPANY
PRIVATE PASSENGER RULES SECTION

***RULE 14. DEFENSIVE DRIVER DISCOUNT**

1. This rule applies only to four wheel vehicles rated as private passenger automobile.
2. This rule applies to any person holding a valid drivers license provided satisfactory evidence (certificate or photostat thereof) is presented to the company stating that the principal operator of the automobile has successfully completed on a voluntary basis a motor vehicle accident prevention course that meets or exceeds the standards of the National Safety Council.
3. A 5% credit will apply to the otherwise applicable Bodily Injury, Property Damage, Basic Personal Injury Protection, and Collision rate.
4. The credit shall apply to new and renewal policies effective within a period of 36 months subsequent to the date of completion of the course. Following such 36 month period, in order to again qualify for such credit the course must be successfully completed and evidence presented.
5. If the policy insures two or more automobiles, the credit shall apply only to that automobile principally operated by a person who has satisfactorily completed the accident prevention course.

RULE 15. MILITARY DISCOUNT

A 5% discount will apply when the named insured or spouse is an Active Duty, traditional drilling Guard/Reserve, or Retired military member of the Armed Forces of the United States. It will also apply to a Junior or Senior Cadet in any of the four Military Academies. This discount applies to Bodily Injury, Property Damage, Basic Personal Injury Protection, Collision and Comprehensive coverages.

NOTES: Traditional drilling refers to those National Guard and Reservist that attend Drills and Annual Training.

The four Military Academies are as follows: U. S. Naval Academy, U.S. Military Academy at West Point, U. S. Air Force Academy and U.S. Coast Guard Academy.

RULE 16. ASSOCIATE DISCOUNT

An 8% discount will be applied to all coverages except Uninsured/Underinsured Motorist Bodily Injury, Uninsured/Underinsured Motorists Property Damage and Additional Personal Injury Protection if the named insured/applicant or spouse is an operator and is a shareholder of, or employed by Berkshire Hathaway or any of its 80% or more owned subsidiaries. This discount is also available as a benefit to all associates who are retired from Berkshire Hathaway or any of its 80% or more owned subsidiaries.

RULE 17. RESERVED FOR FUTURE USE

RULE 18. E-BANKING DISCOUNT

A 3% discount will be applied to all coverages except Uninsured/Underinsured Motorists Bodily Injury and Uninsured/Underinsured Motorist Property Damage and Additional Personal Injury Protection when the following conditions are met:

1. Policyholder has a verifiable business relationship with an approved commercial bank partner,
2. Policyholder is continuously enrolled in Electronic Funds Transfer (EFT) using a commercial bank partner account, and
3. Policyholder is continuously enrolled in paperless billing and paperless policy delivery.

The discount will be removed at renewal, reissue, or cancel/rewrite if any of the conditions are no longer met.

In the event GEICO's (GEICO Companies) partnership with a commercial bank partner terminates, the discount will be retained for existing policyholders provided the policyholder continues to meet conditions 2 and 3 above.

- D. Emergency Handbrake Lock (a warning label is not required)

Category III: - A discount of 15% applies to the premium when a vehicle is equipped with one of the following:

- A. Passive Alarm System
- B. Passive Fuel Cut-off Device
- C. Armored Ignition Cut-off Switch
- D. Passive Multi-Component Cut-off Switch
- E. Passive Time Delay Ignition System
- F. Armored Cable or Electrically Operated Hood Lock and Ignition Cut-off System
- G. Passive, Delayed Ignition Cut-off System
- H. Passive Ignition Lock Protective System
- I. High Security Ignition Replacement Lock
- J. Hydraulic Brake Lock
- K. Window Identification System

Category IV: – A discount of 20% applies to the premium when a vehicle is equipped with a vehicle recovery system.

Category V: - A discount of 25% applies to the premium when a vehicle is equipped with both a Category III device and a Category IV recovery system.

RULE 20. TIER PLACEMENT/RENEWAL DISCOUNT

A. TIER PLACEMENT

A risk will be assigned to a pricing tier. The tier factors are shown on a chart at the end of the private passenger section. These factors are applied to the GEICO Indemnity base rate.

The tier factors will apply to Bodily Injury, Property Damage, Basic Personal Injury Protection, Comprehensive, Collision, Emergency Road Service and Rental Reimbursement coverages.

B. RENEWAL DISCOUNT

A discount will be applied at each of the first two qualifying renewals to the Bodily Injury, Property Damage, Basic Personal Injury Protection, Collision and Comprehensive premiums when all operators of the insured vehicle(s) have no new points assigned at renewal. Refer to the table at the end of the Private Passenger Section for Renewal Discount factors.

If any driver on a policy already receiving a renewal discount is assigned at least 1 new point at renewal, the discount will not be increased, but will be maintained at its current amount until the next renewal at which no new points are assigned.

For policies renewing effective on or before February 7, 2011, any policy receiving the discount level associated with the second through the eighth qualifying renewal will continue to be rated at that discount level on each subsequent renewal.

RULE 21. VEHICLE LIABILITY RATING

Rates for Bodily Injury, Property Damage and Basic Personal Injury Protection Coverage for 2004 and subsequent model year vehicles will be adjusted by a vehicle liability rating factor corresponding to the vehicle liability symbol. Refer to the table at the end of the private passenger section under Rule 21 for factors. To obtain the applicable liability symbol for a vehicle, refer to Vehicle Liability Rating listing in the symbol section of the manual. For vehicles not shown on the listing use the liability symbol for a comparable model for the prior model year.

RULE 22. GOOD STUDENT DISCOUNT (Cont'd)

Eligibility Requirements

- a. There is an owner or operator age 16-24 who is classified as a single male or a single female operator, and that person is:
 - (1) a full-time student in high school, or
 - (2) enrolled in an academic home study program, or
 - (3) enrolled as a full-time student in academic courses in a college or university, and
- b. The scholastic records for the immediately preceding school semester or quarter (or comparable segment) show that each such operator was a full-time student, and
 - (1) ranked scholastically among the upper 20% of the class, or
 - (2) in schools designating grades by letter (such as A, B, C, D & F), had a grade average of B or its equivalent (see note below), or
 - (3) in schools where numbers are used to designate grade "points" (such as 4, 3, 2 & 1), had an average of at least three points for all subjects combined, or its equivalent, or
 - (4) in schools that maintain a "Dean's List", "Honor Roll", or comparable listing for scholastic achievement, was included in such a list, and
 - (5) ranked in the upper 20% of one of the following national standardized tests administered within the past 12 months:
 - (i) PSAT (Preliminary Scholastic Aptitude Test)
 - (ii) PACT (Preliminary American College Test)
 - (iii) SAT-1 (Scholastic Aptitude Test-1)
 - (iv) ACT (American College Test)
 - (v) Iowa Test of Basic Skills
 - (vi) California Achievement Test
 - (vii) TAP (Tests of Achievement and Proficiency)
- c. for each such student the Company may request a statement, certified by a responsible official of the school, indicating attainment of at least one of the above scholastic requirements, (the most recent report card or transcript of grades will be considered certified by an official of the school). For students qualifying under b(5) above, a copy of the appropriate test results is sufficient.
- d. similar statements may be requested by the Company each 12 months, subsequently.

NOTES: If the system of grading by letter is not susceptible to averaging no grade shall be below "B" or its equivalent. The Good Student Discount will be continued after completion of the operator's undergraduate work, provided the operator:

- a. graduated from a four year college and had a scholastic record meeting the above requirements; and
- b. continues to be the controlling factor in the classification of the automobile.

The Good Student Discount will terminate at the next renewal after the qualifying student reaches age 25. This discount is not applicable to Junior and Senior Military Academy Cadets eligible for the Military Discount.

***RULE 23. VEHICLE INSPECTIONS**

Inspections are required for vehicles requesting comprehensive and/or collision coverage with the following exceptions:

- a. Newly purchased or leased vehicles from a licensed auto dealership.
- b. Vehicles added to a GEICO or affiliate policy if the named insured was continuously insured with GEICO or affiliate for at least one policy term or, during the first policy term if the named insured came to GEICO with current insurance and no lapse of coverage.

**GEICO INDEMNITY COMPANY
PRIVATE PASSENGER RULES SECTION

***RULE 23. VEHICLE INSPECTIONS (Cont'd)**

- c. When a policy is and has remained successfully in force with the Companies for at least six months, and is renewing or has renewed.
- d. Vehicles currently insured under a GEICO or affiliate policy in another state.
- e. For new business applicants which come to the Companies with current insurance and no lapse of coverage. Defined as applicants with:
 - i. an active policy with another company; or
 - ii. listed as a driver on another person's policy; or
 - iii. a private passenger company vehicle, where the vehicle is covered by the company's insurance policy; or
 - iv. motorcycle coverage; or
 - v. currently driving a vehicle that is insured but they are not listed on the policy; or
 - vi. a 0 Day lapse, where an applicant's policy cancelled or expired on date of application.
- f. Any other reason outlined in N.J.A.C. 11:3-36.4.

RULE 24. MINIMUM PREMIUM RULE - PHYSICAL DAMAGE

The minimum annual premium is as shown in the rate section of this manual, subject to no reduction, for each policy covering one or more of the following perils (but not including Emergency Road Service) even though coverage against other perils may be included in the policy:

Comprehensive
Collision

The minimum premium shall be inclusive of additional charges imposed for additional hazards in connection with the perils named above. In the event of cancellation or the issuance of a short term policy, pro rata of such annual minimum premium shall be charged as the conditions require. The minimum premium shall apply to each policy, certificate or declaration under a bordereau.

RULE 25. INSURANCE SCORE

Insurance score will be used in combination with other characteristics to determine new business underwriting placement. The insurance score does not apply to a basic policy.

Upon request, the Company will reorder insurance score information and evaluate the underwriting placement. Insurance score reordering will not adversely affect the insured. The insured may make this request on an annual basis, but not more frequently than once in a twelve-month period.

Placement for No-Hits and Thin Files will be determined in combination with other characteristics commensurate with loss experience.

If insurance score information has been adversely impacted by an extraordinary life circumstance, a neutral insurance score will be assigned.

Introduction	Purpose and Organization	

@

Purpose

The purpose of this guide is to assist the underwriter in identifying and handling risks where the exposure exceeds the premium charged, and risks where the premium exceeds the exposure presented. When these mismatches occur some action may be needed. The sources of information evaluated or triggers for an underwriting review will include:

1. Claims loss reports, CLUE and MVR's,
2. Underwriting information from the customer,
3. System underwriting reviews;
4. Other pertinent data

This guide should not be used as a set of hard and fast rules. Rather, it should serve to guide the underwriter on what information is needed to reach a correct decision for proper placement. The final decision should always be processed through normal lines of authority within the particular profit center.

The GEICO Auto Group Computer Assisted Standards provide underwriting direction and placement within the GEICO Group:

1. Government Employees Insurance Company (GE) - Preferred Risk
2. GEICO General Insurance Company (GG) - Preferred Risk
3. GEICO Indemnity Company (GI) -Standard Risk (including CCM-C1)
4. GEICO Casualty Company(GC) -NonStandard Risk (including CCM-C)

The following is a list of possible actions:

1. Moving the risk to a lower priced or higher priced company or tier,
2. Stripping coverage,
3. Increasing deductibles,
4. Adding a Named driver exclusion. Where appropriate, we may offer a separate policy to the excluded driver.
5. Ceding,
6. Reviewing prior to renewal,
7. Flagging the file,
8. Denying additional exposures,
9. Obtaining more information from the policyholder,
10. Cancelling*, or
11. Nonrenewing*.

*

In All States The Cancellation And Nonrenewal Sections Of The State Supplement To The Computer Assisted Standards Should Be Reviewed Before Action Is Taken.

Ordering MVR's	MVR Ordering Guide	

1. Manually ordered Motor Vehicle Reports

CONDITIONS	MVR	OTHER
Underwriting characteristics (see Underwriting Characteristics section) point to a questionable risk but there is not reason enough to nonrenew.	X	
Information from Claims that indicates a serious violation like a DWI, Hit and Run or Reckless Driving, or a questionable loss occurring between 11 P.M. and 4 A.M., Loss information indicates a negligent lending loss. The information from the customer indicates a serious conviction.	X X	Obtain additional information on the driver from the policyholder by phone, UL-23 or CLUE report.
Information from the customer indicates that an individual not included on the policy has occasional use of the auto and has a questionable driving record. A driver who has a year or more of driving experience is added to the policy.	X X	Consider a CLUE report Consider CLUE report

MVR or CLUE Reports should not be ordered if the covered driver has no driving history to verify or a driving record which only covers a period of six months or less. If we have a recent MVR for the driver a new one may not be needed.

MVR's generally should **not** be ordered under the following circumstances:

1. For drivers (except Military) newly relocated into a state, *do not* order using the *new* state's license. If we have the driver's license number of the state from which the operator moved, we should order *that* state's MVR.
2. Drivers with a temporary license or learning permit.
3. Drivers with an international license.
4. Drivers in the military who have returned from overseas within the last year.

2. System Generated MVR's

Under certain situations the system will automatically order an MVR. For example, MVR's are ordered annually for GC customers. The ordering of MVR's varies depending on the state. Please see the state supplemental pages for the specific details.

@ **Reduced Convictions**

There are 11 states where it is not uncommon, through appeals and plea bargaining, for serious violations to be reduced to **less** serious convictions. These states are:

Alabama	Maryland
California	Minnesota
Colorado	Utah
Connecticut	Virginia
Delaware	West Virginia
District of Columbia	

Certain standard lesser convictions are applied. They serve as tip-offs as to possible (but only *possible*) reduced charges. Refer to the supplement pages of the states mentioned.

I. Review Guide/

Loss Information Always review the C-51 with adverse information to determine if any additional action is necessary.

II. Rating Concern

If the driver number on the claim is 99 (driver not on policy) we need to determine if the driver should be added to the policy. Call or write to the policyholder, requesting underwriting and rating information on the individual. If the driver number is 98 (driver unknown), question why. Is it a group living arrangement with free access to the insured auto? The driver number could also be 97 (no driver). If there is a pattern of this type of loss report (driver 97, 98, 99), the policy should be reviewed.

III. Underwriting Concern

In all companies, a thorough underwriting review should be completed on all cases where:

- (1) The loss or conviction information indicates adverse handling may be warranted. Refer to the Risk Standards.
- (2) If there has been a mistake in the ordering of the MVR and no information is returned from the state ("no hit").
- (3) MVR (ordered at New Business, but received after New Business handling has been completed) where the MVR shows more or different accidents or convictions than initially reported on the application.
- (4) License suspension or revocation within the last 10 years for GE/GG, 5 years for GI, one year for GC, which was not previously reviewed.
- (5) Any time grounds exists other than non-payment, for a midterm cancellation as defined by the contract in use.
- (6) If Claims reports the presence of a physical impairment refer to the Physical Impairment Section of the Auto Group Guide to Company Placement.

The Policyholder's Request**

Use the Computer Assisted Standards for all cases where there is a lapse in coverage of six months* or less.
Use the New Business guidelines for policies canceled more than six months.*

* State and/or profit center exceptions to the length of lapse may be found in DirectNet under the Reissue procedures.

When a policy is canceled for nonpayment of premium, we should have a payment prior to binding coverage. On phone cases we can collect the down payment via credit/debit card or direct check where permitted. Payment exceptions may be considered for customers who do not have a poor payment history. These exceptions should be approved by a supervisor.

When speaking with the policyholder, get the following information:

1. Accident and conviction details for the entire 3 to 5 year underwriting review period.
2. Complete driver and vehicle use information when:
 - a. the policy was canceled more than 30 days, or
 - b. if canceled less than 30 days, when the available rating information is more than six months old.

When there is a lapse in coverage of 30 days or more, question the policyholder to determine if he or she knew that the automobile insurance policy had been canceled.

Miscellaneous	Other Factors	

@ Change In Auto Use

Changes in automobile use are common. The following characteristics are an indication of the policyholder's departure from normal past use and warrant review.

- a. A youthful occasional operator who leaves home for school or military duty, taking the car. If the driver had a borderline driving record while on the parents' policy, extreme underwriting caution is warranted. If the parents are insured with GE/GG and you feel that GE/GG cannot absorb this added exposure, try to place the youthful driver with GI or GC with his or her own policy. If the parents have a GI policy, attempt to place the youthful operator with GC.

If the son or daughter is on a companion policy (e.g., separate location) and develops an unfavorable record, the companion policy should be treated as a separate policy for evaluation and handling. There may be situations where it would be to everyone's benefit if the policies were treated separately. This would be a case when the risk on the companion policy is undesirable, but the basic risk is acceptable. In this case, handling should be taken on the companion policy only, and the file set up for nonrenewal review.

- b. The policyholder originally recorded a short commuting distance and now indicates a one way commuting distance of 75 miles or more one-way and the driving record has deteriorated.
- c. The policyholder indicates a change in use where the occupancy of the vehicle can lead to high liability claims. The policyholder, for instance, uses the vehicle to transport someone else's children to school on a regular basis. Our rating structure cannot handle this type of exposure. Nonrenewal is a viable alternative when the policyholder will continue in this activity.

In both **(b)** and **(c)** the policyholder should be informed of the action that will be taken if he or she continues to present this exposure. If the policyholder does not take alternative action, nonrenewal or placement in a lower company should be considered.

- d. If the vehicle's usage is one that we do not insure, such as wholesale, retail or pizza delivery, adverse handling is appropriate.

WITH NEW JERSEY EXCEPTIONS

Section	Subject	Revised: 09/29/09
Miscellaneous	Other Factors	

Owners Other Than The Insured

The insured should be owner or co-owner of all vehicles to be insured. If the insured is a co-owner, the insured should co-own the vehicle with a relative, or a non-relative who resides with the insured. If an insured co-owns a vehicle with a resident non-relative and reports the acquisition within 30 days of purchase date, there is automatic coverage under the policy.

When adding a vehicle to the policy, verify that there is an insurable interest according to the definition of "owned auto" in the contract.

If no insurable interest exists, decline to add the vehicle. If we determine after coverage is bound that there is no insurable interest, terminate coverage on that vehicle at the earliest opportunity. If we did not know about the ownership situation, we may cancel coverage if there are no state restrictions on doing so. If we knew about the ownership situation and coverage was bound in error, we cannot cancel; we must non-renew the vehicle. Generally when the insured co-owns a vehicle with a non-relative who resides with the insured, we prefer that the co-owners be co-owner-insured's.

We may add a vehicle *solely* owned by an individual other than the insured, as long as one of the following conditions exists:

1. The sole owner of the vehicle is a spouse, fiancé, child, sibling, parent or grandparent of the insured and the vehicle is furnished for the regular use of the insured only, or
2. The insured has taken over the payments on a vehicle from the sole owner and the insured is the sole driver of the vehicle. The sole owner and finance company must be listed as a lienholder on the policy.

For Significant Others, we may add a vehicle provided that at least one vehicle on the existing policy is co-owned by the insured and significant other or the insured requests that the significant other be added to the policy at the time the vehicle is added.

@

Note: The Client system will only store one person as the named insured. Another person can be stored as the secondary insured and as a co-insured. With proper formatting, both can be shown as named insureds on the policy declarations sheet. Undesirable types of ownership presently in our book of business should be continued subject to the Computer Assisted Standards.

Sons and daughters of our insureds who are sole owners of their vehicles should be considered for a policy in their own names in the company for which they qualify.

Vehicles leased for 6 months or longer are considered the same as those owned by the insured.

Corporation owned vehicles used in business are to be reviewed carefully. Check to see if there is an offset in the rating plan. If there is no offset in the rates for these vehicles, only the most favorable risks should be written. (See the Computer Assisted Standards for reviewing these types of vehicles.)

Miscellaneous	Physical Impairments	

Physical Impairments

Refer to the Physical Impairments section of the Auto Group Guide to Company Placement if a physical impairment is reported. Obtain a doctor's statement when an impairment is not considered acceptable for the company insuring the risk. Any adverse action based on a physical impairment must be approved by a supervisor.

When a driver has been on the policy for a number of years, past driving record should be considered. If it is not a favorable driving record and the driver with the physical impairment is not the principal operator, consider a named driver exclusion prior to stronger alternatives. If the entire risk is unfavorable, adverse handling should be considered, but underwriting discretion must be used.. Consider the physically impaired driver's percentage of use, past driving record, and vehicular compensation factors, i.e., automatic controls, mirrors, etc. Determine if the type of impairment (epilepsy, heart disease, etc.) causes an increase in exposure to the point where it might be unacceptable. In these cases, stronger measures may be needed.

@ **Business Use
(Newly Reported)**

When a policyholder first reports business use, obtain full information concerning the increased exposure. Generally, mileage in excess of 100 miles a day or 500 miles a week along with a marginal driving record is unacceptable. The insured's past driving record should be considered in an effort to determine if the insured has the driving capabilities to handle the increased exposure.

Certain trucks used in business are unacceptable. See the Commercial section of the rating manual. Commercial rates always apply for trucks with a gross vehicle weight in excess of 15,000 pounds. Generally, we do not write these vehicles. GC does not write any vehicle that does not qualify for private passenger rating. None of the companies insure any vehicle used as a public or livery conveyance or for snow plowing other than on one's own personal property.

Note: We are currently not writing commercially used trucks in New Jersey.

@ **Higher Limits
(GE/GG Only)**

Policyholders requesting liability limits above 300/300 should be encouraged to apply for the GEICO Personal Umbrella Policy (GPUP). Policyholders who currently have Bodily Injury Liability limits exceeding 300/300 will also be encouraged to adjust to 300/300 and add the GPUP.

If the policyholder does not want a personal umbrella policy, continue any policies already having higher limits as written and process new requests for higher limits through normal channels.

Note: See the GPUP guidelines.

@ **Higher Limits
(GI/GC only)**

Any request for Bodily Injury Liability limits in excess of those that can be approved based on the Lines of Authority recommendation for your grade should be juried for approval. However, limits of 100/300 can be written without jurying for leased vehicles, or for customers who own homes.

Section	Subject	Revised: 09/29/09
Miscellaneous	Other Factors	

“Spin-Offs”

I. Sons and Daughters

When sons or daughters are included on the policy and are unfavorable risks, underwriting discretion must be used. Factors to be considered are:

1. The desirability of the risk without the son or daughter;
2. The length of time the son or daughter will remain on the policy, e.g., the son has just graduated from college and in all likelihood will be obtaining his own vehicle and insurance in the near future;
3. If it appears that the son or daughter will be on the parents' policy for a few more years, adverse handling may be in order, even at the risk of losing the entire risk;
4. The son or daughter has a vehicle at a separate location, where there is less likelihood of parental supervision of vehicle usage.

@ **II. Divorce/Separation Cases**

Generally, if we were going to continue the policy at renewal, issue separate policies for both ex-spouses in the same company and tier.

If we were going to take adverse action based on either driver's record, consider movement to a higher rated company when issuing the unacceptable ex-spouse his or her policy. **Check state legal exceptions.**

Section	Subject	Revised: 09/29/09
Miscellaneous	Other Factors	
Annual Mileage	If the annual mileage is over 20,000 miles, find out how the mileage is being acquired. An insured who uses his car in business, with an average mileage over 20,000, may be acceptable since the higher business rate absorbs some of this added exposure. Similarly, if an insured drives over 20,000 miles a year and travels, for example, 40 miles one way to work 5 days per week, higher rates may offset the greater loss potential. The underwriter must examine the driving environment. High annual mileage may be undesirable in a congested urban area, but may be acceptable in a rural environment. Keep in mind that we do not usually get a higher rate for high mileage if there is a youthful driver rate being charged. If the youthful driver is responsible for the high annual mileage, the rate may not be adequate.	
Impending Disasters	If an official order is issued to evacuate an area because of an impending disaster, decline all requests to <i>add</i> physical damage coverages, or to <i>decrease</i> the physical damage <i>deductibles</i>. Once the disaster is no longer a concern, we can resume our normal practices.	
Physical Damage Coverage On Older Vehicles	While we do not offer or automatically quote Comprehensive and Collision coverages on autos 10 years old or older, we will generally write those coverages when requested. Check state exceptions.	
@ Handling Requests for Physical Damage Coverage Only	Requests for only Comprehensive and Collision coverages are not acceptable as Liability coverage is a prerequisite for offering the Physical Damage coverages. Exceptions may be in order for a vehicle in storage for a short period of time.

- @ **Emergency Road Service (ERS) Coverage** ERS coverage is available for vehicles with Comprehensive and/or Collision coverages.

Notes:

1. If a customer is adding a vehicle with liability only and wants to carry ERS LIAB, then you may allow ERS.
2. Replacement vehicles, regardless of company, may have ERS without physical damage coverage if the vehicle being replaced had ERS coverage without physical damage coverage. No supervisory approval is required for these situations.
3. If the customer has ERS coverage on a liability only vehicle, he or she may keep it in a move-up situation, without approval. It must be the ERS LIAB version of ERS. If the customer had ERS before or ERS FULL, change to ERS LIAB version at the time of the move-up.
4. Do not offer or write ERS coverage for "Duallies" (pick-up trucks with four wheels on the rear axle) or motorhomes. There are no exceptions.

State Exceptions:

New Hampshire - ERS coverage is not available on ceded policies.

- @ North Carolina - Towing and Labor coverage is available for both ceded and voluntary policies, regardless of company, as long as physical damage coverages are written. (Towing and Labor coverage is very similar to ERS.)

Mechanical Breakdown Insurance (MBI)

MBI coverage is not written for *standard* electric vehicles or Daewoo vehicles. The coverage can be written for *hybrid* electric vehicles.

**Certificates of Financial

As a general rule CFR's for serious offenses should be declined for GE/GG. The risk should be evaluated for GI or GC or consider a named driver exclusion. However, if it can be determined that the offense was an isolated incident and the risk essentially remains desirable, the CFR may be filed for GE/GG.

All cases requiring a CFR due to an offense should be juried prior to reaching a decision. Gather all necessary information, including ordering an MVR. Requests for CFR's for reasons other than driving behavior can usually be filed without underwriting concern.

Check the CFR section of the online Policy Processing Manual for further information. We are not required to file CFR's in all states.

@ **Named Driver Exclusion**

The Named Driver Exclusion (NDE) is used when required by state regulation and under some circumstances to make an undesirable risk acceptable by the exclusion of one or more drivers.

Check the state supplement for NDE availability and restrictions on use.

This Endorsement Can Be Attached Mid-Term Only When Grounds For Cancellation Exist Or At The Insured's Request.

Where use of the NDE is permitted, it should generally be limited to the following situations:

1. An adverse action was taken and the insured has requested reconsideration. We should be reasonably certain that the excluded driver will obtain his or her own insurance and/or will not drive the insured vehicles. We prefer that the auto principally driven by the excluded driver be insured on another policy, or that the undesirable driver not be a household member.
2. Requests from the insured prior to our taking adverse action. This includes cases where the insured recognizes the undesirable driving behavior and asks to have the driver excluded.
3. The customer no longer wants to pay the higher costs for a youthful driver or a driver with a poor driving record. We should be reasonably certain that the excluded driver will not drive the insured vehicle.
4. Exceptional situations with the approval of the Underwriting Manager.

@ Removal of Named Driver Exclusion

If the policyholder requests that an NDE be removed, and it can be readily determined (e.g., by review of PLOGI) that the exclusion had been applied because of policyholder request, go ahead and remove it. The driver should then be underwritten as any newly added driver.

In any other case, before removing the exclusion, we should check with the policyholder to ascertain the status of the excluded driver and use the following guidelines:

1. If the excluded driver is no longer a household resident and/or no longer has access to the insured vehicles, the exclusion may be removed.
2. If the excluded driver is still a household resident, we should not remove the exclusion unless the driver's record is acceptable. A MVR and CLUE should be ordered to help in the review.
3. If the driver has been driving our insured's auto uninsured, the exclusion should remain on the policy.
4. If there is any question concerning the excluded driver's access to the insured vehicles, residence or driving record, leave the exclusion on the policy.

Handling Within The Initial Underwriting Period

To evaluate New Business MVR'S or CLUE reports received after the policy is posted, apply the appropriate New Business Guidelines. If the risk would not have been accepted had this information been known, the policy should be canceled and a downward offer made.

If the customer has an accident or conviction during the period while insured with us, use the Computer Assisted Standards to determine continuing acceptability. If unacceptable, the policy should be set up for adverse handling at renewal. However, if non renewal restrictions would prevent us from taking action at that juncture, we should cancel the policy now.

Handling After The Initial Underwriting Period

Handling differs after the 60* day initial underwriting period (*time varies by state). We have three alternatives for handling cases where adverse information is developed from "after-posting" MVR, CLUE or loss reports:

1. We can null and void the policy where permitted by law (**check the state supplement**) for those cases where the information was known to the customer at the time of application and the customer did not report it and:
 - a. had the information been known, we would not have accepted the risk, and
 - b. the risk did not meet the binder conditions as stated on the application.
2. If grounds for cancellation after the initial underwriting period exist, we can cancel midterm.
3. If grounds do not exist for cancellation after the initial underwriting period, we can flag the policy for possible adverse action prior to the next scheduled renewal.

@ **Dune Buggy**

Insurability

GE/GG/GI

This risk is acceptable if we insure other car(s) on a policy and:

- There are no single principal operators under age 25.
- The vehicle will not be used for racing or speed contests.
- There is no commercial use of the vehicle.
- All other aspects of the risk are above average.

Coverages

Only mandatory coverages at minimum limits will apply for coverages offered.

Decline cases where the vehicle is used commercially.

@ **Golfmobiles**

Insurability

GE/GG/GI

This risk is acceptable if we insure other car(s) on a policy and the golfmobile is principally used off public roads. Golfmobiles voluntarily licensed for road use or used commercially are not acceptable.

Coverages

All liability coverages are written, not exceed those on the regular automobile.

If a customer requests and qualifies for a personal umbrella policy, Bodily Injury limits of 300/300 and Property Damage limits of \$100, 000 can be written on the GEICO or GEICO General automobile policy, provided the insurability guidelines are met.

If the insured asks for physical damage type coverages, inform him or her that these coverages are usually written under Homeowner policies.

Current Policyholders

When a current policyholder requests the addition or replacement of a motorcycle on his/her existing automobile policy, the request should be referred to the GEICO Motorcycle Department for a motorcycle policy. If the coverage is unavailable, refer to the following general guidelines.

Coverages and Limits

GE/GG

(Check state exceptions for availability)

- Bodily Injury Liability - Limits should be the same as carried on the auto(s) insured under the policy.
- Property Damage Liability - Limit should be the same as carried on the auto(s) insured under the policy.
- Medical Payments - \$1,000 limit with \$200 deductible.
- Personal Injury Protection where required.
- Uninsured Motorists Coverage - should be the same carried on the auto(s) insured under the policy.
- Comprehensive.
- Fire, Theft and Combined Additional.
- Collision.

Claim Activity

If the insured reports a theft of a motorcycle, alternatives should be considered when determining coverage for an additional or replacement motorcycle:

1. Comprehensive coverage should be removed and/or
2. Prior to continuing coverage, determine what precautions are taken to protect the cycle from future thefts. Examples might include a security device and/or a change in storage location.

If the insured reports a chargeable loss, the risk should generally be nonrenewed. This is especially true in no-fault states.

GI

GI only writes coverage for motorcycles on a separate policy from the automobile(s).

GC

GC does not write motorcycle coverage at all. GC policyholders should apply for a GEICO motorcycle policy.

Travel trailers kept at a location other than the insured's residence, left unattended and used as a vacation or weekend home should be declined if located within five miles of the coast.

Trailer Size

Physical Damage coverages are not generally written on small trailers (3 ft by 5 ft, etc.).

Claim Activity

Underwriting discretion should be exercised if there is any indication that the insured has reduced capacity in handling a trailer in any manner. In most cases where a problem exists, canceling the physical damage coverage on the trailer will be sufficient.

Portable Camper/Vehicles Equipped With Living Quarters (Pickups, Station Wagons, etc.)**Use**

Generally, business use is unacceptable. Loaning on a regular basis or renting the vehicles is also unacceptable. If any of these situations exist, nonrenew or decline the risk. - Winches and other equipment indicating that the vehicle is used for off-the-road purposes.
- High or low rider vehicles – Vehicles whose suspensions have been raised or lowered by more than six inches from the standard model, or which have oversized tires that add significant height to the vehicle.
- Equipment mounted in or on the vehicle that may point toward business/commercial use. Examples include welding equipment or tanks.

@ **Vanpools**
GE/GG only

There must be supporting business. Reject the following:

- a. Any risk making more than 1 trip to and from work per day,
- b. Any risk picking up or depositing passengers far from the owner's home or work, and
- c. Any risk who owns the van but does not ride in it.

Because of the exposure involved and the potential for severe losses, vanpools must be underwritten carefully. These guides apply to the person who is a registered owner of the van, drives it with 1 or 2 back-up drivers, and is responsible for maintenance of the vehicle. Be sure the vehicle is eligible for the appropriate family or combination contract.

All drivers of the van must be acceptable for the risk to be acceptable.

1. All drivers of the van, when it is carrying passengers, must be at least 25 years old and not over 60, with at least 5 years driving experience.
2. Reject any driver with a suspension or revocation within the past 5 years for any reason and within the past 10 years for a serious conviction such as drunk driving or reckless driving.
3. Reject any driver who has been convicted of any drinking or drug violation within the past 10 years. Underwrite carefully any risk who was required to file an SR-22 in the past 10 years for an adverse reason.
4. Drivers must be in excellent physical condition. Reject any driver who is not clearly GEICO acceptable according to the Physical Impairments guides. Reject all drivers with conditions which might result in loss of consciousness such as seizures, heart disease, diabetes.
5. Accidents: The preferred vanpool risk has no accidents. One non-negligent accident per driver in the past 5 years may be acceptable or, one minor negligent accident may be acceptable. Jury such a case to a manager.
6. Convictions: A driver should be conviction free. Drivers without accidents may have one minor conviction if all other factors are **superior**. Again, risks reporting convictions must be juried to a manager.
7. A current MVR must be reviewed before binding a risk.
8. Daily round-trip mileage should not exceed 145 miles.

Vanpools - continued

9. Higher limits will often be requested. Limits over 300/300/50 must be approved by a manager. Do not write any risk requesting 50/100 or less. Higher limits point to a responsible vanpool operator; low limits indicate a vanpool operator who does not comprehend the potential for loss inherent in vanpooling. Also, the low limit policyholder may be intentionally cutting the budget to increase surplus.

The following coverages are those suggested for vanpools.

Bodily Injury	300/500
Property Damage	100
Comprehensive	100
Collision	150
Uninsured Motorist	Required limits
Personal Injury Protection/Medical	Required limits
Towing	

10. The operation of the vanpool must be non-profit. The driver may ride free and may accumulate a "surplus" for future maintenance and contingencies. The operation of the vanpool must be incidental in that the owner may not be a professional vanpool driver, carry a sign or hold himself or herself out as a public vanpool operator. This would indicate that the vehicle is being operated as a public livery or conveyance and thus excluded from coverage under the contract.
11. Vans should not be over 8 years old. For vans that are customized, see the Specialty Vehicle Section (Customized Vans) in these guides. There must be one seat per passenger, with seat belt. If the word "vanpool" appears on the exterior of the van, reject the risk.

GI and GC

The Computer Assisted Standards are used to identify risks that should be reviewed for continued acceptability.

The Computer Assisted Standards are also used to determine the acceptability of risks seeking to have their policies reissued within six months of non-payment cancellation.

Go beyond the stated review period to determine the desirability of retaining a risk. Try to develop a long term picture of the overall risk based on the information available. Look for general trends of improvement or of continuing deterioration. What is the outlook for the future? Also, consider such factors as exposure, type of car, the applicability and amount of surcharge and length of experience. Determine if we can expect improvement in a young driver's record and if we are receiving an inexperienced operator surcharge.

All adverse actions require a second affirming opinion before the action is taken. Specifically, this includes the approval and signature of an underwriting supervisor or higher, unless the authority to make these decisions has been granted by the profit center to a non-supervisory associate.

Review for Adverse Handling - All Companies

Review risks that meet the following situations and make a decision about whether the risk should be moved down (and which company to move the risk down to), non renewed, coverage stripped, a driver excluded or that no adverse handling is warranted at this time. Generally adverse handling should be considered when any of the following situations exist, **it is allowed by contract, and no legal restrictions preclude it. Generally, Risks with one DUI in seven years are unacceptable for GEICO placement. Risks with two or more DUIs in 7 years are unacceptable in any company.**

1. Any risk which meets or exceeds, solely due to accidents and convictions, the maximum points chargeable under a surcharge rating plan.
2. Any **GI/GC** risk with an at-fault accident between 11:00 P.M. and 4:00 A.M. within the last 5 years not previously reviewed.
3. Any driver with a non-administrative license suspension or revocation within the last five years not previously reviewed.
4. Any driver with three or more non negligent accidents (other than rental reimbursement, ERS, Towing and Labor, and Comprehensive losses) within the last three years, at least one must not have been previously reviewed. The driver must also have one at fault accident or conviction in the same time period.
5. There is at least one occurrence not previously reviewed and the following standard is met or exceeded:
 - a. The policy has been in force less than three years:
 - Single car policy with two or more occurrences since the customer has been insured with us.
 - Multi-car policy with three or more occurrences since the customer has been insured with us.
 - b. A multi-car policy has been in force less than one year and there are two or more negligent accidents since the customer has been with us, regardless of whether by the same or different drivers.
6. Any risk with characteristics that exceed the general profiles for company or risk group placement as described in the Risk Characteristics section or the GEICO Auto New Jersey Guide to Company Placement.

Risk Characteristics

This guide contains criteria for placement among GEICO's four companies. These are just guides and not rules. The criteria do not address every factor or combination of factors that may have an effect on our underwriting results.

The factors relating to loss exposure may usually be viewed as more favorable, less favorable or of no significance. All of the factors should be considered in evaluating the placement of a risk in the four companies; however, all the factors should not receive equal consideration.

The factors listed below are considered in evaluating which company to offer. The legal exceptions that are contained in the state supplements must be complied with when evaluating a risk. We should not consider any factor that we are prohibited from using in a state when evaluating a risk in that particular state. The factors are discussed in terms of what is more favorable and less favorable. The information is provided in this manner so as to avoid hard and fast rules as to risk placement among the four companies.

The factors are grouped into five categories (driving record, claim filing history, drivers, vehicles and policy stability factors) and are listed on the following pages.

@

GEICO AUTO GROUP COMPUTER ASSISTED STANDARDS
WITH NEW JERSEY EXCEPTIONS

Section	Subject	Revised: 09/29/09
Risk Characteristics		

I. Driving Record

Accidents - Policies with more accidents are considered less favorable than policies with fewer accidents and recent accidents are considered less favorable than older ones. Among policies with multiple accidents, those where the accidents were spread among different drivers are more favorable than those where the accidents were all by one driver. Special consideration should be given to accidents where the driver fell asleep behind the wheel and accidents where the operator of the vehicle was not listed on the policy. These are less favorable than other types of accidents.

Convictions - In our preferred companies, policies with more convictions are considered less favorable than policies with fewer convictions, and recent convictions are considered less favorable than older ones. Risks with a serious conviction (drink/drugs, hit and run, racing, felony, vehicular manslaughter/assault) are usually considered unacceptable in our preferred companies. Risks with more than one serious conviction are usually considered unacceptable in any company. Minor convictions are usually not considered in our standard and non-standard companies except in large quantities (5+).

@

Major Convictions - Major convictions include, but are not limited to, convictions for driving under the influence of drugs or alcohol, driving on a suspended or revoked license, homicide, manslaughter, assault, failure to stop and render aid, criminally negligent operation of a motor vehicle, reckless driving, racing, eluding police, refusal to submit to a sobriety test when required, open container, speeding by 20 miles or more over the limit, and speeding by 85 miles per hour or greater regardless of the posted limit.

Suspensions - Policies with more suspensions are considered less favorable than policies with fewer suspensions and recent suspensions are considered less favorable than older ones. In addition, shorter suspensions are less unfavorable than longer ones and administrative suspensions (e.g. for failure to pay a ticket) are not considered as unfavorable as other types of suspensions. We should only be insuring operators with current valid driver's licenses.

II. Claim Filing History

The number of claims filed under a policy (other than those considered under Driving Record) is considered when evaluating a policy. Policies with more claims are considered less favorable than policies with fewer claims and recent claims are considered less favorable than older ones. Where permitted, the types of claims considered should include:

Not-at-fault accidents
Thefts and Vandalism
Glass claims
Other Comprehensive losses
ERS claims

WITH NEW JERSEY EXCEPTIONS

Section	Subject	Revised: 09/29/09
Risk Characteristics		

III. Drivers

Age - Policies with young drivers (18 or under) or senior drivers (70+) are considered less favorable than policies without young drivers or senior drivers.

Occupation - The more favorable occupations are Groups 1, 2, 7 (graduate students) and 8 (E-6's and higher). The remaining groups are less favorable, with the least favorable being Group 5's, certain Group 7's (students with sophomore status or less) and the lower ranking Group 8's. See Group Definitions in the GEICO Automobile Group Guide to Company Placement for an explanation of occupational groups.

Number of Drivers and Marital Status - One driver that is single, two drivers that are married and three or more drivers that include a married couple are considered most favorable. Other combinations are considered less favorable.

Education - Risks who have achieved at least a high school diploma or its equivalent are more favorable than those without a high school education. Bachelors, masters and other advanced degrees are considered most favorable. Level of education is not a factor for risks in Occupation Groups 7 and 8.

Excluded and Unlicensed Drivers - Policies with Named Driver Exclusions and unlicensed members of the household of driving age (18+ for this purpose) are considered less favorable than households where everyone driving is able to be listed on the policy.

IV. Vehicles

Number of Vehicles - Policies with several vehicles (4+) are considered more favorable than those with fewer vehicles. Multiple vehicles can also be considered as a mitigating circumstance when considering factors under Driving Record and Claims Filing History.

Number of Drivers and Number of Vehicles - The most favorable combination is where the number of drivers is the same as the number of vehicles. Less favorable are policies with one driver and multiple vehicles and policies with more drivers than vehicles, except policies with only two drivers and one vehicle.

WITH NEW JERSEY EXCEPTIONS

Section	Subject	Revised: 09/29/09
Underwriting Characteristics	Guidelines	

V. Policy Stability Factors

Policy Years - Longer tenured policies are considered more favorable than those with a shorter tenure.

BI Limits - Policies with higher BI limits are considered more favorable than those with lower limits.

Reissues - Policies with more reissues are considered less favorable than policies with fewer reissues and recent reissues are considered less favorable than older ones. In addition, longer lapses of coverage before reissue are considered less favorable than shorter ones.

Cancellation Notices - Policies where more cancellation notices have been issued are considered less favorable than policies with fewer cancellation notices and recent cancellation notices are considered less favorable than older ones.

Returned Checks - Policies that have submitted more returned checks are considered less favorable than policies with fewer returned checks and recent returned checks are considered less favorable than older ones.

Source of Business - Policies that came to us via the Internet are considered slightly more favorable than those that came through other business sources.

Vehicles Added or Replaced - In the normal life of a policy, vehicles covered by the policy will sometimes be added or replaced. If a policy has added or changed several vehicles in a short period of time, this should be considered less favorable than policies without this type of activity. Policies that have had vehicles added without having a corresponding vehicle removed are considered less favorable than where vehicles have been replaced on the policy. Also, if a policy has had vehicles added soon after the point of sale, consideration should be given to whether the exposure has changed since the policy was underwritten at new business. However, insureds who are adding a spouse, fiancé, domestic partner, significant other, or any other driver who qualifies as a secondary named insured along with that insured's vehicle are considered favorable.

Coverage Changes - In the normal life of a policy, an insured will probably change the amount of coverage under the policy to reflect his or her situation. However, if coverages are changed often in a short period of time, this should be considered less favorable than policies with a more typical frequency of changes (five changes in five years). Multiple changes made on the same day (i.e., BI and PD limits increased at the same time) should be considered as one change. Also, coverage changes made as the result of a new vehicle on the policy should be disregarded.

Prime Time		
Underwriting	Any GEICO risk whom we are going to retain and who meets the eligibility requirements must be placed in Prime Time if it is available in the state.	
Note:	Prime Time policies are not applicable for New Jersey insureds. Once a risk is in the program, you no longer apply the Initial Eligibility Requirements to it. A risk can, however, be taken out of Prime Time for certain reasons, and if it is retained by GEICO, you must evaluate it again at each renewal to see if it meets the Initial Eligibility Requirements. <u>Prime Time Initial Eligibility Requirements</u> 1. The named insured/applicant or spouse is age 50 or above and is a principal operator of at least one auto. 2. No operators under 25 years of age on the policy. 3. No vehicles are used (rated) for business. All drivers are free of at-fault accidents or convictions for the previous three years. Reunderwrite risks in Prime Time according to the following guidelines.	
Renewal Guarantee	The conditions for the renewal guarantee are: 1. The named insured or spouse is at least age 50 and is a principal operator of an auto insured on the policy; 2. There are no drivers under age 25 on the policy; 3. All operators of the insured autos are physically and mentally able to operate an auto safely. If this provision is not met, we may require a physician certification if one is not already provided. 4. The insured autos are principally located in a state that has approved and continues to approve the use of these conditions; and 5. The representations provided in applications, including the Automobile Insurance Questionnaires were true.	
Cancellation	The Prime Time contract and renewal guarantee do not eliminate cancellation provisions. You may cancel when specific conditions are present, such as license suspension or revocation in most states. Check individual state supplements, and offer coverage with the appropriate affiliate when warranted.

Prime Time		

@	Nonrenewal	If a Prime Time policyholder has voided the renewal guarantee, and the risk does not meet the prevailing Computer Assisted Standards, adverse handling is probably in order, regardless of the number of surcharge points developed under the rating plan. Generally, coverage should be offered with the appropriate affiliate.
	Reissues	If the Prime Time policy is canceled for some reason (non payment of premium; at the insured's request), the customer is seeking reissuance of the policy and the risk does not meet GEICO's renewal standards, the risk should be declined reissuance in GEICO and generally offered coverage with the appropriate affiliate.
	Occurrences After Experience Period Cutoff	Initial Eligibility Requirements state that all drivers must be free of convictions and at-fault accidents for the previous three years. This period is the three years preceding the date of your review for placement in the program. It is not necessarily the same as the surcharge plan experience period. Therefore, if there is an occurrence on the record within three years of your review, do not place the risk in Prime Time. When there is an occurrence after initial placement or subsequent renewal in Prime Time, but prior to the policy (or renewal) effective date, the Prime Time policy should be continued and the applicable surcharge, if any, applied to the next policy term.
	Impairments	An impairment affecting an insured's ability to operate a vehicle safely voids the renewal guarantee. Some insureds will report impairments. However, in many cases a deteriorating driving record will be the only indicator of a possible impairment. As a result, there will be some cases of poor driving record where it will be worth the cost of a doctor's exam and statement to see if we have an insured who cannot safely operate an automobile. Of course, reported impairments should also be reviewed and doctor's exams and statements requested when appropriate. Follow all state legal exceptions on impairments.
	Removal of the Qualifying Insured	When the driver (named insured or spouse) who qualifies the risk for Prime Time dies or is otherwise removed from the policy, review to determine if the remaining named insured is eligible or would qualify prior to the renewal. If not, change to the regular Family contract and send new policy papers and an explanation to the policyholder, or nonrenew if warranted.

Miscellaneous	Void Ab Initio	

Void Ab Initio

In addition to the usual adverse actions that are available to underwriters, there is another action, which is seldom used. The policy may be voided. When a policy is voided, also referred to as rescinded, it is terminated as of its original inception date. All monies that have been paid are refunded.

Generally, this situation arises due to misrepresentation on the application.

A representation is:

- an oral or written statement which precedes the contract of insurance,
- not a part of the contract unless otherwise stipulated,
- made by the insured, and
- relates facts necessary to enable the insurer to decide whether to accept the risk.

A misrepresentation is:

- an oral or written statement, made by the insured to the insurer,
- a statement of something as a fact which is untrue, is known to be untrue and is stated with intent, or has a tendency to mislead or deceive, or which is stated positively as true without its being known to be true and which has a tendency to mislead, and
- relates to a material fact , and is made to induce the making of the contract.

To void a policy for misrepresentation, the misrepresentation must:

- relate to a material fact and
- have been willfully and knowingly made with an intent to defraud.

A representation that relates to a material fact is of such a nature that it is relied on by the underwriter in deciding whether to accept or decline the risk. Usually, the misrepresentation will involve one of the binder questions or the questions involving accidents or traffic convictions.

Section	Subject	Revised: 09/29/09
Miscellaneous	Void Ab Initio	

**When To Void-
New Business**

When we decide to void a policy we should act quickly. Speed is of the utmost importance because we are revoking the coverage we have granted and failure to act promptly may jeopardize the validity of our action. On new business cases the letter rescinding (voiding) coverage should be released within five working days of the receipt of the application, or MVR if later than the application. If we can't meet this time commitment, we should consider sending a reject letter.

In states where we are rescinding coverage on new business cases, we should use the following criteria:

1. previously unapproved "yes" answer to a question that is a "binder" question on direct mail applications, and constitutes the basis for refusal of the application; or
2. an unreported accident and/or conviction which would have made the risk unacceptable for the bound company.
3. an unreported "minor" accident and/or conviction that breaches the occurrences threshold in the GEICO Automobile Group Guide to Company Placement; or
4. other **clearly** material factor such as a previously undisclosed, unrelated, unacceptable principal operator.

Note: In the circumstances outlined above we are referring to cases where we discover the information. **The insured has not disclosed it to us.** As a general rule we should not void cases bound over the phone where the insured discloses information on the signed application but not on the phone application. These phone cases should be handled as rejects.

Keep in mind that the misrepresentation must relate to a **material fact** and have been willfully and knowingly made with a intent to defraud. If there is a question, give the applicant the benefit of the doubt and reject. For example, say we discover the applicant's adult son had a minor traffic conviction three years ago and this conviction breaches the occurrence threshold. This is more likely to be an oversight than a deliberate attempt to conceal information.

Section	Subject	Revised: 09/29/09
Miscellaneous	Void Ab Initio	

**When To Void - Other Than
New Business**

Voiding a policy is a serious and extreme action. It should not be undertaken when other alternatives such as nonrenewal or cancellation are more practical.

Any Voiding Of Policies Other Than At The New Business Stage Must Have The Approval Of The Regional Assistant Vice President Of Underwriting And/Or The Regional Vice President.

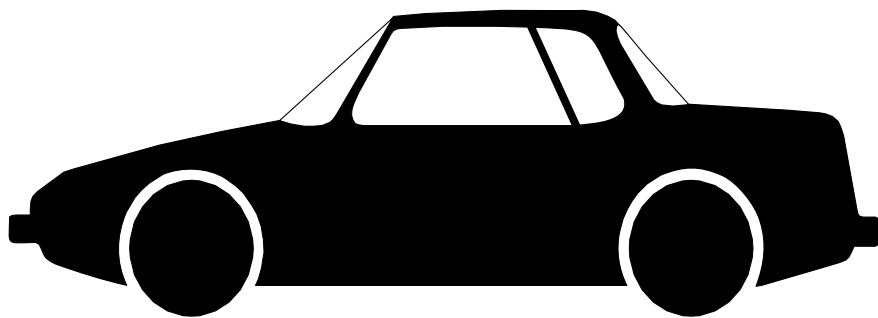

Voiding Of New Jersey Policies Other Than At The New Business Stage Is Prohibited.

Voiding the policy involves canceling all coverage provided since the misrepresentation occurred. We must refund all monies paid and cancel the policy as of the policy effective date. For example, if the risk was insured with us for three years, we would have to go back and cancel each policy flat and refund all payments made. Unless there are extremely extenuating circumstances, do not void coverage, but rather cancel or nonrenew. Examples of circumstances where we may want to consider voiding the policy are:

- The insured has a serious physical or mental impairment such as epilepsy and already has had a loss related to this condition or we fear such a loss is imminent. (The condition must have existed at the time of the application, and was not disclosed by the applicant.)
- The insured is submitting what appears to be a fraudulent claim and we are just made aware that the policy was obtained through misrepresentation.

In most cases, the situation where we will want to void coverage will involve a serious loss. These are usually cases where we uncover information during our claim investigation that indicates the policy was obtained through misrepresentation. Action of this type should be coordinated with Claims and Legal.

Introduction

@ The name GEICO, when used in this guide, applies to Government Employees Insurance Company. Currently, no new business is being written in GEICO General or GEICO Casualty. Both government and nongovernment employees can be written in Government Employees Insurance Company.

Differences exist in the Companies' underwriting, and these differences should not be overlooked. When placing applicants among the companies, use sound underwriting judgment. If an applicant is acceptable for a particular company, but the only principal operator on the policy is not acceptable, the risk should be offered coverage with the company for which the principal operator is acceptable.

The guidelines contained in this document form the basis for your placement decisions.

It is essential to maintain each company's homogeneity of risks by the proper placement of business. Risks better matched with GEICO Indemnity's rates should not be written in GEICO, and risks that meet GEICO's acceptability standards should not be written in GEICO Indemnity.

Those persons who are not acceptable for placement in the GEICO companies may find coverage elsewhere or be placed in the New Jersey Personal Automobile Insurance Plan (PAIP).

Underwriting Legal Exceptions

LEGAL EXCEPTIONS

No insurance producer shall refuse to take an application from an applicant for any reason based in whole or in part upon the race, color, creed, religion, sex or physical impairments of an applicant, or for any arbitrary, capricious, or unfairly discriminatory reason, or for any reason which is contrary to federal or state law.

Parties to a civil union have all the same benefits, protections and responsibilities under law as are granted to spouses in a marriage, which is defined as the union of one man and one woman. Wherever the terms marriage, spouse, family, immediate family, dependent, next of kin, or any other term that denotes the spousal relationship is used or defined, a party to a civil union will be included.

No underwriting rule shall be based on whether the insured has changed employment in the recent past.

No underwriting rule shall be based on whether the insured or a member of the insured's household purchases or continues to purchase other insurance or services from the insurer or its affiliates, agents or other companies under common management or ownership.

An insurer may not discriminate on the basis that an applicant is or may be a victim of domestic violence, employs a person who is or may be a victim of domestic violence, or operates a domestic violence shelter. The prohibited practices are:

- Denying, refusing to issue or renew, canceling or terminating an insurance policy;
- Restricting, excluding or limiting benefits, denying a covered claim by an insured as a result of domestic violence;
- Failing to pay claims arising out of abuse or using other exclusions or limitations on coverage which unreasonably restrict the ability of a victim of domestic violence to be indemnified for the loss; or
- Adding a premium differential to the insurance policy.

No underwriting rule shall be based on whether the applicant was previously insured by a residual market mechanism, or whether another insurer declined to insure or terminated insurance.

@ UNDERWRITING RULE PROHIBITIONS

The Underwriting Rules must meet the following standards:

1. An underwriting rule shall be based on specific and verifiable standards. No underwriting rule shall be based on subjective judgments such as "pride of ownership evident," "poor attitude," "unsatisfactory environment to conduct business," etc.
2. No underwriting rule shall be based on race, color, creed, national origin or ancestry.
3. No underwriting rule shall be based on whether the insured is impaired by physical or mental disabilities except those disabilities that impair the ability to operate an automobile safely.

Tier and General Standards

TIER STANDARDS

No rule shall be based on race, color, creed, religion, national origin or ancestry.

No risk may be placed in a higher than standard tier solely for the accumulation of four or fewer motor vehicle violation points by the named insured or a regular operator.

No rule shall be based on the territory in which an insured resides.

No rule shall be based on subjective judgments such as "pride of ownership evident," "poor attitude," "unsatisfactory environment to conduct business," etc.

No rule shall be based on the previous coverage of an insured or applicant by a substandard insurer in such a way as to rely on the application of the previous insurer's underwriting rules.

An applicant cannot be placed in a higher than standard tier due to a drug or alcohol related conviction or suspension occurring more than 5 years ago.

BASIC AUTOMOBILE INSURANCE POLICY

When an applicant requests a Basic Automobile Insurance Policy, the Company will not use credit as an underwriting factor. An applicant for the Basic Policy who qualifies for GEICO or GEICO Indemnity will be written in GEICO Indemnity Tier 9. Applicants qualifying for GEICO Casualty will be written in GEICO Casualty Tier 9.

GENERAL STANDARDS

An insurer with more than one rating plan for policies providing identical coverages shall not adopt rules which would permit a person to be insured under more than one rating plan.

There shall be no rate differential for a single speeding violation of less than 15 miles per hour by a driver on the application.

Group Definitions

@

Group 1

Group 1 occupations have exhibited superior loss experience in the past. Generally these occupations require a bachelor's degree, and some applicants will have advanced degrees. Occupations in this group include accountants (**Note:** several states *do not* require CPA's to have bachelor's degrees), administrators, architects, commercial writers, graphic or technical designers, dentists, editors, engineers, judges, lawyers, navigators, pharmacists, pilots and professional Federal employees in an administrative or technical position.

Group 2

Group 2 occupations usually require a bachelor's degree; some applicants will have advanced degrees. Typical occupations are physicians, actuaries, dietitians, teachers, veterinarians and college educated sales representatives with a high degree of technical knowledge in fields such as airplanes or computers, etc.

Group 3

Group 3 occupations usually require at least a high school diploma, but usually less than a bachelor's degree, nonclerical in nature, and involve problem solving and/or decision making and the use of judgement. Typically, they are technicians with vocational training or an associate's degree, wholesale nonspecialized sales representatives, supervisors and managers of clerical staffs, farmers, policemen, firemen and those administrators or professional and technical personnel not in Groups 1 and 2.

Group 4

Group 4 occupations usually require a high school diploma. Some may require vocational training or even 2 years of college. Typical occupations are clerical positions using special knowledge or exercising judgment/decision making responsibilities, technicians with on-the-job training, sales representatives not included in Groups 2 and 3, higher skilled artisans, opticians, plumbers, office machine operators such as duplicating machine operators and foremen.

Group 5

Group 5 occupations include minimally-skilled clerks, assistants, bartenders and bouncers. Also included are long haul drivers, route men, unskilled and semiskilled workers.

Group Definitions

SPECIAL PROFILES

Group 7

Students

This group is comprised of full-time high school and college students, including undergraduate and graduate students and student professional nurses, as well as to those college students who have graduated within the past three months and are either unemployed or employed in Group 4 or 5 occupations while continuing to look for work in their field, or more appropriate to their level of education. Part-time students (less than 12 semester hours or 9 trimester or quarter hours) should be evaluated against the applicable occupational group profile.

Group 8

@

Military

This group includes all active and retired military applicants. Reservists and National Guard applicants must be employed in these positions full time for this occupational group.

GROUPING FOR MARRIED APPLICANTS

The applicable occupational group for married applicants is determined by the occupation of the principal operator. When an application is submitted by a spouse who is not the principal operator, it is essential to obtain supplemental driving information for the principal operator.

When both spouses are principal operators (multi-car cases) or have equal use (single car cases), apply the criteria for the more preferred group.

If either spouse is enlisted military and a driver, use the Group 8 criteria.

@

RETIRED CIVILIAN APPLICANTS

Disregard any current occupation and evaluate against the previous occupation's profile.

Underwriting Characteristics

This guide contains criteria for placement among our companies. The factors relating to loss exposure may usually be viewed as favorable, unfavorable or of no significance. All of the factors should be considered in evaluating the placement of a risk in the companies. However, all the factors should not receive equal consideration.

The factors listed below are considered in evaluating which company to offer and discussed in terms of what is favorable and what is not. The factors are grouped into 3 categories (driving record, drivers and vehicles) and are listed below:

A. Driving Record:

1. Accidents (The loss damage must exceed a \$1,000 threshold for the accident to be considered.)

- a. Evaluate how many accidents the drivers have had in the past 5 years. The more accidents present, the more unfavorable the risk is viewed and consideration should be given to placement in GI or GC. If there is more than one accident, view the risk more favorably if the accidents are spread among the drivers, rather than one driver having multiple accidents.
- b. Consider when the accidents occurred. Recent accidents (including not at fault) are considered more unfavorably than accidents more than a year old.
- c. **Multiple** not at fault accidents are considered an unfavorable factor.

2. Theft/vandalism incidents (The loss amount for Comprehensive must exceed a \$1,000 threshold for consideration.)

Multiple theft/vandalism incidents are considered unfavorable. Recent incidents are considered more unfavorably than incidents over a year old.

3. Convictions

- a. Evaluate how many convictions the drivers have had in the past 5 years and who had them.
- b. Consider the seriousness of the conviction. Of particular concern are convictions for greatly exceeding the speed limit*, reckless driving and convictions involving drink or drugs. These present greater exposure and should be viewed more unfavorably when evaluating a risk. Risks with more than one serious conviction (drink/drugs, hit and run, racing, felony, vehicular manslaughter/assault) are not written.
- c. Consider when the convictions occurred. More recent convictions should be looked upon as more unfavorable than convictions over a year old.

*** No consideration is given to a single speeding violation of less than 15 miles per hour by a driver on the application.**

GEICO AUTO NEW JERSEY GUIDE TO COMPANY PLACEMENT

Section

Revised:

Underwriting Characteristics

4. License Suspension or Revocation

Risks reporting license suspensions should be questioned regarding the cause and duration of the suspension.

If a decision is made to write a policy for a driver who does not currently have a valid license, the risk can be placed in the recommended company with documentation and follow up to obtain proof of license reinstatement.

See page 16 for additional information on evaluating accidents, convictions and other occurrences, and the circumstances surrounding them.

B. Drivers:

1. **Driver Age/Usage**-The most favorable risk is one where the oldest driver on the policy is less than 70 years old.
2. **Occupation Group** - The more favorable occupations are Groups 1, 2, 7 (graduate students), and 8 (E-6's and higher). The remaining groups are less preferred, with the least favorable being Group 5's, and the lower ranking Group 8's. See page 4 for an explanation of occupational groups.
3. **Number of Drivers & Marital Status** - One driver who is an unmarried male, two drivers who are married, and three drivers who include a married couple are considered most favorable. Other combinations are considered less favorable.
4. **Driving Experience** - The more experienced driver is preferred over the newer driver. A driver with at least seven years driving experience should be considered experienced. In underwriting drivers with less than seven years experience, we are most concerned about older drivers since young drivers have higher rates to compensate for their inexperience. Newly licensed drivers over 75 years old are unacceptable in all companies. When evaluating driving experience, count only experience obtained in the United States or Canada.
5. **Current Insurance** -The most favorable applicant is one who is shopping for coverage in advance of his or her insurance policy's expiration date. Also favorable are applicants that were previously covered under their parents' policy. Risks with no prior insurance or a lapse of 31 or more days are least favorable. Applicants who are insuring their first auto, had no need for insurance or had a short lapse fall in between the two groups mentioned above.
6. **Current BI Limits** – Applicants with large BI limits (300/300 or higher) are considered most favorable and applicants with lower limits (less than 50/100) are least favorable.
7. **Years with Current Insurer** - Longer tenure with current insurer is more favorable than shorter tenure (less than 5 years).

@

GEICO AUTO NEW JERSEY GUIDE TO COMPANY PLACEMENT

Section

Revised:

Underwriting Characteristics

8. **Education** - Risks who have achieved at least a high school diploma or its equivalent are more favorable than those without a high school education. Bachelors, Masters, and other advanced degrees are considered most favorable. Level of education is not a factor for risks in Occupation Groups 7 and 8.
9. **Physical Impairments** - No underwriting rule shall be based on whether the insured is impaired by physical or mental disabilities except those disabilities that impair the ability to operate an automobile safely. See page 27 for Physical Impairment Guide.
10. **Credit History** - Risks whose credit history does not contain adverse information are more favorable than those whose credit history contains such information.

C. Vehicles

1. **Number of Vehicles** - In general, more is better. Three or more vehicles are most preferred.
2. **Number of Drivers & Number of Vehicles** - The most favorable risks are married applicants requesting insurance for multiple drivers, regardless of the number of vehicles. Also favorable are single male applicants who are the sole operators of one or more vehicles. Less favorable risks include one driver cases with one or more vehicles, except single males, and unmarried applicants requesting insurance for multiple drivers when the number of vehicles is less than the number of drivers. In general, unmarried applicants requesting insurance on multiple drivers when the number of vehicles is equal to or greater than the number of drivers are neutral except for cases that include a very young operator.
3. **Type of Vehicle** - See pages 10 and 17 for information on vehicles and vehicle types that are of concern.
4. **Usage** - Applicants using a vehicle for pizza or similar delivery are not written. Wholesale and retail delivery is not written. Also see page 14 for information on vehicles used for business and page 9 regarding the lending of vehicles.

Section	Revised:
Underwriting Guidelines	

UNACCEPTABLE APPLICATIONS - The following applications are not acceptable for any of the companies. These guidelines apply to all territories in New Jersey.

- If the applicant reports a previous lending loss during the last 3 years and reports occasional lending, the risk is to be declined coverage. Military risks or students living in group quarters and reporting occasional lending are always to be declined coverage.

- c. **Infrequent - The applicant may report that he lends his car only in an emergency situation. This type of lending is acceptable.**
4. PASSENGERS - Except for carpools or vanpools (see page 21), all risks transporting more than one or two unrelated passengers on a regular basis should be carefully underwritten and referred to the Underwriting Manager. Examples of generally unacceptable exposures include the transportation of children in connection with daycare, or a social worker who transports clients.
5. LOCATION -
- a. If a public service announcement is made concerning an impending disaster or other situation having the potential of causing catastrophic loss, new business is **not** to be accepted or bound in that area until the threat of disaster has passed.
 - b. Do not write vehicles registered in Massachusetts unless the vehicle will be re-registered within 30 days. The policy must be controlled for 30 days for confirmation of re-registration.
 - c. Do not write vehicles located in Adak, Alaska.

Underwriting Guidelines

6. USAGE –

- a. Applicants using a vehicle for pizza or similar delivery are not written. Wholesale and retail delivery is not written.
- b. If the annual mileage is over 20,000 miles, find out how the mileage is being acquired. An applicant who uses his car in business, with an average mileage over 20,000, may be acceptable since the higher business rate absorbs some of this added exposure.
- c. Vehicles used for rural mail delivery by federal government employees and covered under the Federal Tort Claims Act while used for mail deliveries are acceptable in all companies provided all other acceptability standards are met. Vehicles not covered by the federal government might be acceptable as accommodation business in GEICO and GEICO Indemnity provided driving records are superior. They are not acceptable in GEICO Casualty.

7. TYPE OF AUTO –

- a. Vehicles used for exhibition or other competitive events including racing are unacceptable to all companies.
- b. All-terrain vehicles (ATV's) are unacceptable to all companies.
Note: ATV coverage may be available with GEICO Motorcycle. Screen for required insurability conditions and check for state coverage availability prior to referring the customer.
- c. Vehicles used for emergency and public livery are unacceptable for all companies.
- d. Motor homes valued at more than \$100,000 are unacceptable to all companies. They should be referred to Insurance Counselors, Inc. (ICI).
- e. GEICO Casualty will also not insure the following types of vehicles: replicas, limited production, antiques, motor homes, snow mobiles, golf carts, kit cars, home built cars or custom cars (including fiberglass), other miscellaneous vehicles and alternatively powered vehicles.
- f. Kit cars and replicas should be offered liability coverages only. Furthermore, these should only be written as supporting business (i.e., other vehicles must also be insured). They are not written at all in GC.
- g. To be considered for GEICO and GEICO Indemnity, vehicles using alternative sources of fuel should be converted by a qualified mechanic. We should not insure vehicles converted with do-it-yourself kits unless the work has been supervised or inspected by a professional in the field. These vehicles are not acceptable for GEICO Casualty.
- h. Trucks with a load capacity of more than 2000 pounds should be declined.
- i. Vehicles rented to others should be declined.
- j. We do not offer coverage in any company for commercial trucks, nor do we insure vehicles used to plow snow (other than on the owner's private property).

k. Special equipment / features which are not insured by us:

- Winches and other equipment indicating that the vehicle is used for off-the-road purposes are not insured by us.
- Vehicles with modified suspensions and/or oversized tires which add significant height to the vehicle (more than six inches).
- Equipment mounted in or on the vehicle indicates business/commercial use. Examples include welding equipment or tanks.

l. Custom features that are generally unacceptable include:

- Expensive stereo systems. Consider the type and value of the vehicle. If the value of the stereo is greater than 10% of the vehicle's value, it is probably excessive. Refer questionable cases to the Underwriting Manager.
- Modified engines. Engine modifications such as non-factory installed turbocharger, spoilers, special exhaust systems or any mention of engine modification.
- Exterior paint. Vehicles with non-factory paint jobs, especially trick paint or murals are of concern. Moderate pin striping is acceptable.
- High or low riders. Vehicles whose suspension has been raised or lowered by more than six inches from the standard for that model.

8. VANPOOLS

- a. GEICO covers vanpools. All vanpools are to be declined in GEICO Indemnity and GEICO Casualty.
- b. Commercial vanpools and for profit arrangements are not written.
- c. DECLINE any requests to insure vanpools which are co-owned by a non-relative, or are owned and operated by a corporation or club (profit or nonprofit).
- d. Decline any risks:
 - i. Making more than one trip to and from work a day,
 - ii. Picking up or depositing passengers far from work or home, or
 - iii. Who own the van but do not ride in it.

Underwriting Guidelines

Additional Placement Guidelines for GEICO Indemnity - Risks containing the following characteristics should not be placed in GEICO Indemnity:

Driving Record:

- a) Applications containing more than one of any of the convictions listed below in the last 5 years, in any combination:
 - i. vehicular homicide.
 - ii. felony involving the use or theft of a motor vehicle.
 - iii. leaving the scene (hit and run).
 - iv. racing, speed contest or exhibition of speed.
 - v. fleeing or attempting to elude police.
 - vi. alcohol or drug related convictions. (Also see b, which follows)
- b) Applications containing two or more drug or alcohol related convictions in the past 5 years.
- c) Applications accumulating 6 or more flags as outlined below (unacceptable for tiers L, N, and Q only):
 - i. 2 flags if the named insured has been licensed less than 2 years.
 - ii. 2 flags if the named insured does not have current insurance. Applicants who have been deployed or overseas, or driving a company car gets 0 flags.
 - iii. 1 flag for 3 caused occurrences. A caused occurrence is defined as an at-fault accident \$1000 or more, conviction, or suspension in 5 years.
 - iv. 2 flags for 4+ caused occurrences in 5 years.
 - v. 2 flags for 3+ not caused occurrences. These include not-at-fault accidents or theft/vandalism claims of \$1000 or more.

Additional Placement Guidelines for GEICO Casualty - While some variations do exist, there are some characteristics that are not acceptable for GC and these are listed below:

1. Driving Record:

- a) Applications containing more than one of any of the convictions listed below in the last 5 years, in any combination:
 - i) vehicular homicide
 - ii) felony involving the use or theft of a motor vehicle
 - iii) leaving the scene (hit and run)
 - iv) racing, speed contest or exhibition of speed
 - v) fleeing or attempting to elude police
 - vi) alcohol or drug related convictions (also see b, which follows);
- b) Applications containing two or more drug or alcohol related convictions in the past 5 years.
- c) Applications accumulating 6 or more flags as outlined below:
 - i) 2 flags if the named insured has been licensed less than 2 years.
 - ii) 2 flags if the named insured does not have current insurance. Applicants who have been deployed or overseas, or driving a company car gets 0 flags.
 - iii) 1 flag for 3 caused occurrences. A caused occurrence is defined as an at-fault accident \$1000 or more, conviction, or suspension in 5 years.
 - iv) 2 flags for 4+ caused occurrences in 5 years.
 - v) 2 flags for 3+ not caused occurrences. These include not-at-fault accidents or theft/vandalism claims of \$1000 or more.

Additional Placement Guidelines

@ **Driving Experience/Ownership**

Driving experience and/or ownership requirements can be met only with driving experience and/or ownership in the United States or Canada. Exceptions can be made for those dependents of U.S. military personnel who have been driving overseas with licenses issued by the U.S. military (e.g., USAEUR/AFI). That driving experience will count for underwriting purposes.

@ **Ownership**

The applicant(s) should be the owner or co-owner of all vehicles to be insured. If the sole owner of the vehicle is a spouse, fiancé, child, sibling, parent or grandparent of the applicant and the vehicle is furnished for the regular use of the applicant only we will allow the policy to be written. Also, if the applicant has taken over the payments on a vehicle from the sole owner and the applicant is the sole driver of the vehicle we will allow the policy to be written. The sole owner and finance company must be listed as a lienholder on the policy.

If there are two unrelated individuals residing together in a long-term, committed relationship*, the policy may be written provided at least one vehicle to be insured is co-owned by these two individuals. Note: The policy system will only store one person as the named insured in the system. Another person can be stored as the secondary insured and as co-insured. With proper formatting both can be shown as named insureds on the policy declarations sheet.

If there is only one applicant and the vehicle is co-owned, that person should co-own the vehicle with a relative or a household resident. Carefully consider any other forms of ownership before insuring. Corporation owned or leased vehicles, used in business, are only written when there is an off-set in the rating structure for them.

* You may use the following definition of *domestic partners* as a standard:

Domestic partners are two adults, not related by blood, who have resided together continuously for at least six months and who intend to reside together on a permanent basis. These individuals must be mutually responsible for their common welfare, and cannot maintain any other domestic partnership or marriage.

Business Use

If the annual mileage is over 20,000 miles, find out how the mileage is being acquired. An applicant who uses his car in business, with an average mileage over 20,000, may be acceptable since the higher business rate absorbs some of this added exposure.

Vehicles used for wholesale or retail deliveries, including pizza or other food deliveries, are unacceptable.

Vehicles used for rural mail delivery by federal government employees and covered under the Federal Tort Claims Act while used for mail deliveries are acceptable in all companies provided all other acceptability standards are met. Vehicles not covered by the federal government might be acceptable as accommodation business in GEICO and GEICO Indemnity provided driving records are superior. They are not acceptable in GEICO Casualty.

Rural mail carriers, such as HRC (Highway Contract Route) are primarily independent contractors that are not covered under the Federal Tort Claims Act. Rural route carriers with designations of TRC (Temporary Relief Carrier) and RCA (Rural Carrier Associates) are covered under the Federal Tort Claims Act.

Additional Placement Guidelines

NAMED EXCLUDED DRIVER

In New Jersey, the Named Excluded Driver endorsement applies only to physical damage coverages on specified automobiles. It does not apply to any remaining coverages on the policy. The named excluded driver may not be rated on the physical damage coverages of the specified automobiles, but may be rated on the remaining coverages. The Named Excluded Driver endorsement shall be made available to the insureds who request it. The endorsement should not be made effective until the named insured signs and returns the exclusion form. **The Named Driver endorsement should not be used in lieu of cancellation or nonrenewal.**

The Named Excluded Driver endorsement will continue in force for the specified automobile(s) on subsequent renewal or replacement policies unless:

1. The specified automobile(s) is removed from the policy;
2. A new automobile replaces the specified automobile(s) on the policy; or
3. The insurer or its authorized representative receives a written request signed by a named insured electing to discontinue the endorsement.

Driving/Insurance History

Occurrences

An occurrence is defined as an accident, conviction for a traffic violation, suspension, theft or vandalism loss.

The accidents and convictions referred to are **minor** accidents and convictions. **Minor** accidents are defined as those not involving risk taking or irresponsible driving behavior. **Minor** convictions include stop signs, stop lights, failure to yield, failure to give full time and attention and speeding convictions not classified below as major.

@

The following speeding convictions are considered major:

- 30 miles per hour over the limit
- 85 miles per hour or greater regardless of the posted limit.

Examples of gross negligent accidents include:

1. Hit and run
2. Loss of control at a high rate of speed
3. Driving under the influence of alcohol or narcotics
4. Collision at high speed
5. Manslaughter

@

Non-negligent loss activity should always be included in the evaluation of the risk. These losses, particularly if they occur frequently, can offer clues to deterioration in driving ability and attitude.

Certificates of Financial Responsibility (SR22)

New Jersey does not have financial responsibility laws or filing requirements. Therefore, the certificate of financial responsibility (SR-22) form is not used.

Vehicle Factors

@

TYPE OF AUTO

- Vehicles used for exhibition or other competitive events including racing are unacceptable to all companies.
- All-terrain vehicles (ATV's) are unacceptable to all companies.
Note: ATV coverage may be available with GEICO Motorcycle. Screen for required insurability conditions and check for state coverage availability prior to referring the customer.
- Vehicles used for emergency and public livery are unacceptable for all companies.
- Motor homes valued at more than \$100,000 are unacceptable to all companies. They should be referred to Insurance Counselors, Inc. (ICI).

GEICO Casualty will also not insure the following types of vehicles: replicas, limited production, antiques, motor homes, snow mobiles, golf carts, kit cars, home built cars or custom cars (including fiberglass), other miscellaneous vehicles and alternatively powered vehicles.

LIABILITY ONLY VEHICLES

Certain vehicles should only be offered **liability coverages**:

1. Gray market vehicles modified to meet U.S. standards may be offered **liability only** in all companies. The applicant should provide proof of compliance.
2. Kit cars and replicas. Furthermore, these should only be written as supporting business (i.e., other vehicles must also be insured). They are not written at all in GC.

ALTERNATIVELY POWERED VEHICLES

To be considered for GEICO and GEICO Indemnity, vehicles using alternative sources of fuel should be converted by a qualified mechanic. We should not insure vehicles converted with do-it-yourself kits unless the work has been supervised or inspected by a professional in the field. These vehicles are not acceptable for GEICO Casualty.

Trucks

TRUCKS

When underwriting trucks we need to consider the use of the vehicle and the vehicle type. We should obtain complete information on the vehicle via completion of a Specialty Vehicle Questionnaire.

Commercial vehicle coverage is not written. The GEICO Companies do not offer coverage for commercial trucks or miscellaneous type vehicles.

Renting

Vehicles rented to others should be declined.

Other Uses

We do not offer coverage in any company for commercial trucks, nor do we insure vehicles used to plow snow (other than on the owner's private property). Vehicles used for wholesale or retail deliveries are unacceptable. Most pickups and vans used in business by artisans can be rated under private passenger rating.

Operators

If there are unrelated operators of a truck used in business or for business purposes, MVRs must be obtained prior to binding. Unrelated drivers may have no accidents or convictions for the past 5 years and must be licensed for 5 years.

Vehicle Type

Trucks with a load capacity of more than 2,000 pounds should be declined. Motor homes, pickups with campers and chassis-mounted campers are acceptable vehicles for GEICO and GEICO Indemnity. We do not insure buses or step vans that have been converted into motor homes.

Special Equipment/Features Which Are Not Insured By Us

- Winches and other equipment indicating that the vehicle is used for off-the-road purposes.
- Vehicles with modified suspensions and/or oversized tires which add significant height to the vehicle (more than six inches).
- Equipment mounted in or on the vehicle indicates business/commercial use. Examples include welding equipment or tanks.

Customized Vehicles

CUSTOMIZED VEHICLES

Applicants should be questioned for possible customizations to the vehicles. In any case where the customer reports customizations, obtain a complete listing and costs of the customizations. The cost of the customizations is needed to determine acceptability and the appropriate premium. Usually, minor customizations to wheels, stereo, etc., are not a problem. Expensive modifications, where the cost of the customizations becomes a significant portion of a vehicle's value, should generally be declined.

Custom features that are generally unacceptable include:

- **@Modified engines.** Engine modifications such as nonfactory installed turbocharger, spoilers, special exhaust systems or any mention of engine modification.
- **Exterior paint.** Vehicles with nonfactory paint jobs, especially trick paint or murals are of concern. Moderate pin striping is acceptable.
- **High or low riders.** Vehicles whose suspension has been raised or lowered by more than six inches from the standard for that model.

Physical Damage

PHYSICAL DAMAGE COVERAGES

Requests for only Comprehensive and/or Collision on motor vehicles are not acceptable, since liability coverages are a prerequisite for offering physical damage coverages. Exceptions may be in order for a vehicle is storage for a short period of time. Comprehensive coverage without Collision coverage is unacceptable for GEICO Casualty, unless the vehicle is in storage.

@ Emergency Road Service (ERS) Coverage

- **Single Car Policies** - ERS FULL coverage is offered and written for vehicles with Comprehensive and/or Collision coverages.
 - **Multi-Car Policies** - ERS FULL coverage is offered and written for vehicles with Comprehensive and/or Collision coverages.
- ERS LIAB is not available at the sales stage. See exception below.

Exception: If you have a NBUS customer who is insuring at least one vehicle that carries Comprehensive and Collision and the customer requests ERS on a liability only vehicle, you may allow ERS LIAB.

- ERS LIAB at the service stage is available only if at least one other vehicle carries Comprehensive or Collision coverage.

Notes:

1. If a customer is adding a vehicle with liability only and wants to carry ERS LIAB then you may allow ERS LIAB.
2. Replacement *vehicles*, regardless of company, may have ERS without physical damage coverages if the vehicle being replaced had ERS coverage without physical damage coverages. No supervisory approval is required for these situations.
3. We will not reissue ERS FULL if the customer does not have the required physical damage coverages.
4. If an existing customer drops physical damage coverage (Comprehensive, Collision, or both) and wants to keep ERS, we will allow the customer to do so.
5. If the customer has ERS coverage on a liability only vehicle, he or she may keep it in a move-up situation, without approval. It must be the ERS LIAB version of ERS. If the customer had ERS before or ERS FULL, change to ERS LIAB version at the time of the move-up.
6. Do not offer or write ERS coverage for "Duallies" (pick-up trucks with four wheels on the rear axle) or motorhomes. There are no exceptions.

Mechanical Breakdown Insurance (MBI)

MBI coverage is not written for *standard* electric vehicles or Daewoo vehicles. The coverage can be written for the *hybrid* electric vehicles.

Vanpools

Vanpools

GEICO covers vanpools. All vanpools are to be declined in GEICO Indemnity and GEICO Casualty.

Commercial vanpools and for profit arrangements are not written.

DECLINE any requests to insure vanpools which are co-owned by a nonrelative, or are owned and operated by a corporation or club (profit or non profit).

Decline any risks:

- a. making more than one trip to and from work per day,
- b. picking up or depositing passengers far from home or work, or
- c. who own the van but do not ride in it.

Because of the exposure involved and the potential for severe losses, vanpools must be underwritten carefully. These guides apply to the person who is a registered owner of the van, drives it himself with 1 or 2 back-up drivers, and is responsible for maintenance of the vehicle. Be sure the vehicle is eligible for the family contract. All drivers of the van must be acceptable for the risk to be acceptable.

1. All drivers of the van, when it is carrying passengers, must be at least 25 years old, and not over 60, with at least 5 years driving experience.
2. Drivers must be in excellent physical condition. Reject any driver who is not clearly GEICO acceptable according to the physical impairments guides. Reject all drivers with conditions which may result in loss of consciousness (seizures, heart disease, diabetes).
3. Accidents: The preferred van pool risk has no accidents. One non-negligent accident per driver in the past 5 years may be acceptable or, one minor negligent accident may be acceptable. Acceptability of the past accident depends on the circumstance. Be cautious. Jury such a case to a manager.
4. Convictions: A driver should be conviction free. Drivers without accidents may have one minor conviction if all other factors are superior. Again, risks reporting convictions must be juried to a manager. Few such risks will be acceptable.
5. Reject any driver who, within the past 5 years, has had a serious violation (for example, a DUI/DWI for alcohol or drugs or reckless driving violation).
6. Suspensions: Reject any driver who, within the past 5 years, has had a suspension or revocation for any reason.
7. A current MVR for each driver of the van must be reviewed before binding a risk.
8. Daily round-trip mileage should not exceed 145 miles.

GEICO AUTO NEW JERSEY GUIDE TO COMPANY PLACEMENT

Section	Issued: 04/14/2005
Vanpools	

Vanpools - continued

9. The operation of the van pool must be non-profit. The driver may ride free and may accumulate a "surplus" for future maintenance and contingencies. The operation of the van pool must be incidental.
The operator of the van may not be a professional van pool driver, carry a sign or hold himself out as a public van pool operator. This would indicate that the vehicle is being operated as a public livery or conveyance and thus excluded from coverage under the policy.
10. Vans should not be over 8 years old. For vans that are customized, see the Customized Vehicle guides. There must be one seat per passenger, with a seat belt. If the word "van pool" appears on the exterior of the van, reject the risk.

Section	Revised:
Insurance Eligibility Points	

INSURANCE ELIGIBILITY POINTS

The Commissioner promulgates the schedule of automobile insurance eligibility points listed on the following pages. The schedule assigns point values to specified driving record occurrences, including convictions, suspensions, revocations and at-fault accidents.

An "at-fault accident" is any accident involving a driver insured under the policy:

1. Where a driver is proportionately responsible based on the number of vehicles involved. A driver is proportionately responsible if 50 percent responsible for an accident involving two or more drivers;

and

2. Which results in a total payment by the insurer of at least \$1,000.

An at fault accident does not include the following:

1. Involvement in a an accident in which the motor vehicle owned or operated by the insured or other driver insured under the policy was lawfully parked;
2. Involvement in an accident in which the motor vehicle was struck by a hit and run driver, if such accident was reported to the proper authorities within 24 hours;
3. Involvement is an accident in connection with which neither the named insured nor any other driver insured under the policy was convicted of a moving traffic violation and the owner or operator of another vehicle involved in such accident was so convicted;
4. For physical damage losses other than collision;
5. For an accident in which the motor vehicle was struck in the rear by another vehicle and a driver insured under the policy has not been convicted of a moving violation in connection with the accident; or
6. For an accident occurring as a result of operation of any motor vehicle in response to an emergency if the operator at the time of the accident was responding to the call to duty as a paid or volunteer member of any police or fire department, first aid squad or any law enforcement agency.

Automobile eligibility points are cumulative and accrue for all violations and occurrences set forth on Schedules 1 and 2.

Revised:

GEICO AUTO NEW JERSEY GUIDE TO COMPANY PLACEMENT

Section	Revised:
Insurance Eligibility Points	

Automobile insurance eligibility points shall be deemed to accrue as follows:

1. Points for at-fault accidents shall accrue on the date that total payment by the insurer equals or exceeds \$1,000. An insurer may, at its option, use the date of the accident or date of first payment provided, however, that the insurer shall not underwrite or rate any policy based on the accident until total payment by the insurer equals or exceeds \$1,000, and further provided that the insurer shall use the optional date consistently in all cases.
2. Points for conviction of motor vehicle violations and other events that are set forth on an abstract of driver's license records available from the New Jersey Division of Motor Vehicles, or comparable agency of another state, shall accrue when the event is recorded in the agency's records as evidenced by an abstract.
3. When a driver insured on the policy has not accrued eligibility points during the preceding three-year period, and is subsequently involved in an at-fault accident, no eligibility points for a two- or three-point violation, as set forth in Schedule 2, shall accrue along with the points assessed in accordance with Schedule 1 for the at-fault accident, when the violation arises out of the same incident which results in the assessment of points for the at-fault accident. However, violations that arise out of the same incident may be considered by insurers for purposes of tier placement.
4. Points for each full year of court-imposed driver's license suspension within the preceding three years and points for each full year within the immediately preceding three years that a person has not held a driver's license shall accrue on the date of application for insurance. However, in accordance with Schedule 1, eligibility points assessed for failure to hold a drivers' license in the previous three years are not cumulative to points assessed for the suspension of a driver's license.

If the event takes place in a state or province other than New Jersey, Schedule 1 and 2 should be consulted for identification of the specific misconduct committed and the assessment of the appropriate number of insurance eligibility points to be assessed.

In addition to the motor vehicle violation and insurance eligibility points specifically enumerated on Schedule 2 pertaining to the New Jersey Turnpike, Atlantic City Expressway, and the Garden State Parkway, for any other motor vehicle violations that occur on the New Jersey Turnpike, the Atlantic City Expressway, the Garden State Parkway or for any other moving violation at any location, Schedules 1 and 2 shall be consulted for identification of the specific misconduct committed and the determination of the appropriate number of insurance eligibility points to be assessed.

LEGAL EXCEPTIONS

@	Personal	Parties to a civil union have all the same benefits, protections and responsibilities under law as are granted to spouses in a marriage, which is defined as the union of one man and one woman. Wherever the terms marriage, spouse, family, immediate family, dependent, next of kin, or any other term that denotes the spousal relationship is used or defined, a party to a civil union will be included. No underwriting rule shall be based on whether the insured has changed employment in the recent past. No underwriting rule shall be based on whether the insured or a member of the insured's household purchases or continues to purchase other insurance or services from the insurer or its affiliates, agents or other companies under common management or ownership. If the Personal Automobile Insurance Plan (PAIP) is not accepting new applications, no insurer can refuse to renew any private passenger automobile insurance policy.
	Domestic Violence	An insurer may not discriminate on the basis that an insured is or may be a victim of domestic violence; employs a person who is or may be a victim of domestic violence; or operates a domestic violence shelter. The prohibited practices are: • Denying, refusing to issue or renew, canceling or terminating an insurance policy; • Restricting, excluding or limiting benefits, denying a covered claim by an insured as a result of domestic violence; • Failing to pay claims arising out of abuse or using other exclusions or limitations on coverage which unreasonably restrict the ability of a victim of domestic violence to be indemnified for the loss; or • Adding a premium differential to the insurance policy.
	Impairments	No underwriting rule shall be based on whether the insured is impaired by physical or mental disabilities except those disabilities that impair the ability to operate an automobile safely.
	Previous Insurance	No underwriting rule shall be based on whether the insured was previously insured by a residual market mechanism, or whether another insurer declined to insure or terminated insurance.
	General Renewal Requirements	Subject to changes approved by the Commissioner that had become effective prior to the expiration of the current policy, each renewal shall offer coverage, limits and terms at least as favorable to the insured as the expiring policy, including, but not limited to the schedule of premium payments, if any.

CANCELLATION WITHIN
60 DAYS

An automobile policy which has been in effect for less than 60 days may be canceled if it is based on one or more of the following reasons:

1. Nonpayment of premium; or
2. The driver's license or motor vehicle registration of either the named insured or of any other operator who resides in the same household as the named insured or who customarily operates a motor vehicle insured under the policy has been under suspension or revocation during the policy period or if the policy is a renewal, during its policy period; or
3. Knowingly providing materially false or misleading information in connection with any application for insurance, renewal of insurance or claim for benefits under an insurance policy; or
4. The insurer determines, within 60 days of issuance of the policy, that the named insured does not meet the approved underwriting rules of the insurer then in effect.

CANCELLATION OVER
60 DAYS

An automobile policy (liability and/or physical damage coverage) which has been in effect for 60 days may be canceled only for the following reasons:

1. Nonpayment of premium.
2. The driver's license or motor vehicle registration of either the named insured or of any other operator who resides in the same household as the named insured or who customarily operates a motor vehicle insured under the policy has been under suspension or revocation during the policy period or if the policy is a renewal, during its policy period for one or more of the following reasons:
 - (a) Conviction of operating a motor vehicle under the influence of alcohol or drugs;
 - (b) Conviction of vehicular homicide;
 - (c) Conviction of operating a motor vehicle while driving privilege is suspended;
 - (d) Conviction of operating a motor vehicle without liability insurance;
 - (e) Conviction of misrepresentation of insurance coverage;
 - (f) Accumulation of motor vehicle penalty points; or
 - (g) By a court upon conviction of one of the following motor vehicle violations:
 - racing on a highway;
 - failure to pass to right of vehicle proceeding in opposite direction;
 - tailgating;
 - reckless driving;
 - exceeding a speed limit by 30 MPH or more;
 - improperly passing a school bus; or
 - leaving the scene of an accident in which personal injury occurred.

CANCELLATION OVER
60 DAYS – continued

3. Knowingly providing materially false or misleading information in connection with any application for insurance, renewal of insurance or claim for benefits under an insurance policy.
4. A household member is convicted of a violation of operating a motor vehicle without liability insurance during the policy term; or other evidence exists indicating that the suspended or revoked driver has been operating a vehicle during a period of suspension.

TIER STANDARDS

No underwriting rule shall be based on race, color, creed, religion, national origin or ancestry.

No risk may be placed in a higher than standard tier solely for the accumulation of four or fewer motor vehicle violation points by the named insured or a regular operator.

No underwriting rule shall be based on the territory in which an insured resides or any factor which the Commissioner finds to be a surrogate for territory.

No underwriting rule shall be based on subjective judgments such as "pride of ownership evident," "poor attitude," "unsatisfactory environment to conduct business," etc.

No underwriting rule shall be based on the previous coverage of an insured or applicant by a substandard insurer in such a way as to rely on the application of the previous insurer's underwriting rules.

GENERAL STANDARDS

An insurer with more than one rating plan for policies providing identical coverages shall not adopt underwriting rules which would permit a person to be insured under more than one rating plan.

There shall be no rate differential for a single speeding violation by the insured of less than 15 miles per hour.

TIER PLACEMENT

An insurer that has implemented a tier rating plan may renew its policies at the appropriate tier for which the risk qualifies in accordance with the insurer's approved underwriting rules.

1. The transfer of a risk from one company to another in accordance with an insured's tier rating plan shall not be deemed to be a nonrenewal.
2. If the insured qualifies for a higher rated tier after having been insured at a lower rated tier, the insurer shall renew the insured at the higher rated tier after providing notice to the insured at the time of renewal advising the insured that he or she is being placed in a higher rated tier resulting in a higher premium.

@ TIER MOVE-UP GUIDELINES

GEICO and GEICO General (Preferred Companies)

A. Movement to a Lower-Priced Tier

Policies will be reviewed annually to see if they qualify for a better priced tier. They will be reviewed using the new business underwriting methodology. A neutral score for credit will be used for all policies. The one driver household composition characteristic will use modified scores that do not vary by gender. The current information for all other underwriting characteristics will be used (age, driving record, etc.). If the policy qualifies for a better priced tier, they will be moved up one tier at a time.

B. Movement to a Higher-Priced Tier

Policies will not be moved from tiers 5, 6, 7, F, H, J, or L to a higher priced tier in the same company. At renewal, policies will be reviewed to see if they are still eligible for tiers 1, 2, 3, 4, C, B, A, X, D, or Y.

To be eligible, policies must meet the following criteria:

1. No more than 1 chargeable accident in 5 year period
2. No major convictions in 5 year period
3. No more than 1 minor conviction per driver in 5 year period
4. No more than 2 incidents of the above
5. No more than 2 theft/vandalism claims in 5 year period

Policies that fail these conditions will be moved to the next highest-priced tier. The policy will not be moved more than one tier in a twelve month period. Notice of the higher tier will be given per New Jersey requirements.

GEICO Indemnity and GEICO Casualty (Standard and Non-Standard)

Policies in GEICO Indemnity tiers 2-6 or in GEICO Casualty tiers 2-8 that have reached the maximum renewal discount will be reviewed to move into a lower priced tier. Qualifying policies in GEICO Indemnity tiers 3-6 will be moved into tier Y, while qualifying policies in tier 2 will be moved into tier D. Qualifying policies in GEICO Casualty will be moved into tier E. Policies that have at-fault accidents or convictions in one year prior to renewal will not be eligible to move tiers.

@ NONRENEWAL
STANDARDS AND
LIMITATIONS

1. For each calendar period, an insurer may nonrenew an amount of voluntary policies not to exceed 2% of the total number of voluntary policies, rounded to the nearest whole number, which are in force at the end of the previous calendar year in each of the insurer's rating territories.
2. For every two newly insured automobiles, which an insurer voluntarily writes in each territory during each calendar year, the insurer may nonrenew one additional automobile in that territory in excess of the 2% limitation established in 1. above. This provision only applies to an insurer whose aggregate voluntary market share in an automobile insurance urban enterprise zone is reasonably proportionate to the insurer's voluntary statewide market share or in a rating territory where the number of in force exposures has increased in the previous year as indicated by the two most recent in force exposure reports for the quarter ending December 31.

The provisions of 1. and 2. above do not apply to any cancellation made pursuant to the Cancellation Over 60 Days section of this guide.

The provisions of 1. and 2. above do not prohibit a nonrenewal of the policy of an insured who has: a) provided false or misleading information in connection with any application for insurance, renewal of insurance or claim for benefits under an insurance policy; or b) failed to provide, after written request by the insurer, the minimum information necessary to accurately rate the policy. No insurer may nonrenew using the false or misleading information provision, (a), without having first conducted an investigation and reported the matter in accordance with the Company's Fraud Detection and Prevention Plan. No insurer may nonrenew using the failing to provide rating information provision, (b), without first having given written notice to the policyholder one full policy cycle prior to the issuance of the nonrenewal letter that:

1. At the next renewal, the insurer shall send the policyholder a renewal questionnaire, which must be completed and returned; and
2. Failure to complete and return that renewal questionnaire may result in the nonrenewal of the policy.

No insurer shall nonrenew a policy in accordance with No. 1 and 2 above:

1. In excess of 20% of the entire private passenger automobile insurance book of business of any one producer in force with the insurer at the end of the previous calendar year; and
2. Unless the insured or any other operator insured under the policy has individually, within five years prior to the expiration of the policy, two or more of the following:
 - (a) an at-fault accident; or

Revised:

State: New Jersey

- (b) a moving violation which was assessed at least four automobile insurance eligibility points; or
- (c) had been required, but failed to maintain insurance coverage without lapse.

If the Personal Automobile Insurance Plan (PAIP) is not accepting new applications, no insurer shall refuse to renew a private passenger automobile insurance policy.

NONRENEWAL PROVISIONS

A notice of nonrenewal shall not be valid unless it includes the designated provision(s) under which action is being taken and the facts relied upon by the insurer in determining to nonrenew the insured. The notice shall include reference to the underwriting provision(s), including dates and other facts necessary for identification of the incident(s).

@

1. When notice of nonrenewal is based on automobile insurance eligibility points, the notice shall identify the number of eligibility points and the events and sources which resulted in their assessment.
2. In the event action is being taken to nonrenew an insured who no longer qualifies for any rate level in accordance with the approved underwriting rules, the notice shall reference the specific underwriting rule by which the insured is disqualified. The notice shall set forth the specific facts upon which the insurer relied to determine that the insured is no longer qualified to be insured in accordance with the insurer's approved underwriting rules.
3. In the event action is being taken under two percent territorial nonrenewal provision, the notice shall specify that the action is being taken in accordance with the two percent territorial nonrenewal provision and shall be consecutively numbered in each territory.
4. In the event action is being taken under the nonrenewal provision for one nonrenewal for each two newly insured automobiles, the notice shall specify that the action is being taken in accordance with that provision and shall be consecutively numbered in each territory.

NAMED EXCLUDED
DRIVER

A Named Excluded Driver endorsement must be made available to insureds. It may be used to exclude a person from physical damage coverages on specified automobiles. The named driver may not be rated on the physical damage coverages. Other coverages will remain in effect for the driver, and the driver will be rated on these coverages.

The Named Excluded Driver endorsement will continue in force for the specified automobile(s) on subsequent renewal or replacement policies unless:

1. The specified automobile(s) is removed from the policy;
2. A new automobile replaces the specified automobile(s) on the policy; or
3. The insurer or its authorized representative receives a written request signed by a named insured electing to discontinue the endorsement.

VOID AB INITIO

An insurer may rescind or void a policy in the event of material misrepresentation, but not if there has been a third party claim or PIP claim.

Revised:

INSURANCE ELIGIBILITY POINTS

The Commissioner promulgates the schedule of automobile insurance eligibility points listed on the following pages. The schedule assigns point values to specified driving record occurrences, including violations, suspensions and at-fault accidents. For the purposes of this section, an "at-fault accident," means an at-fault accident that results in payment by the insurer of at least a \$1,000 claim. An "at-fault accident" does not mean an accident occurring as a result of operation of any motor vehicle in response to a medical emergency if the operator at the time of the accident was a physician responding to the medical emergency.

An "at-fault accident" is any accident involving a driver insured under the policy:

1. Where a driver is proportionately responsible based on the number of vehicles involved. A driver is proportionately responsible if 50 percent responsible for an accident involving two or more drivers; and
2. Which results in a total payment by the insurer of at least \$1,000.

An at fault accident does not include the following:

1. Involvement in a an accident in which the motor vehicle owned or operated by the insured or other driver insured under the policy was lawfully parked
2. Involvement in an accident in which the motor vehicle was struck by a hit and run driver, if such accident was reported to the proper authorities within 24 hours;
3. Involvement is an accident in connection with which neither the named insured nor any other driver insured under the policy was convicted of a moving traffic violation and the owner or operator of another vehicle involved in such accident was so convicted;
4. For physical damage losses other than collision;
5. For an accident in which the motor vehicle was struck in the rear by another vehicle and a driver insured under the policy has not been convicted of a moving violation in connection with the accident; or
6. For an accident occurring as a result of operation of any motor vehicle in response to an emergency if the operator at the time of the accident was responding to the call to duty as a paid or volunteer member of any policy or fire department, first aid squad or any law enforcement agency.

Revised:

Automobile eligibility points are cumulative and accrue for all violations and occurrences set forth on Schedules 1 and 2.

Automobile insurance eligibility points shall be deemed to accrue as follows:

1. Points for at-fault accidents shall accrue on the date that total payment by the insurer equals or exceeds \$1,000. An insurer may, at its option, use the date of the accident or date of first payment provided, however, that the insurer shall not underwrite or rate any policy based on the accident until total payment by the insurer equals or exceeds \$1,000, and further provided that the insurer shall use the optional date consistently in all cases.
2. Points for conviction of motor vehicle violations and other events that are set forth on an abstract of drivers license records available from the New Jersey Division of Motor Vehicles, or comparable agency of another state, shall accrue when the event is recorded in the agency's records as evidenced by an abstract.
- @ 3. When a driver insured on the policy has not accrued eligibility points during the preceding three-year period, and is subsequently involved in an at-fault accident, no eligibility points for a two- or three-point violation, as set forth in Schedule 2, shall accrue along with the points assessed in accordance with Schedule 1 for the at-fault accident, when the violation arises out of the same incident which results in the assessment of points for the at-fault accident. However, violations that arise out of the same incident may be considered by insurers for purposes of tier placement.
4. Points for each full year of court-imposed driver's license suspension within the preceding three years and points for each full year within the immediately preceding three years that a person has not held a driver's license shall accrue on the date of application for insurance. However, in accordance with Schedule 1, eligibility points assessed for failure to hold a driver's license in the previous three years are not cumulative to points assessed for the suspension of a driver's license.

If the event takes place in a state or province other than New Jersey, Schedule 1 and 2 should be consulted for identification of the specific misconduct committed and the assessment of the appropriate number of insurance eligibility points to be assessed.

In addition to the motor vehicle violation and insurance eligibility points specifically enumerated on Schedule 2 pertaining to the New Jersey Turnpike, Atlantic City Expressway, and the Garden State Parkway, for any other motor vehicle violations that occur on the New Jersey Turnpike, the Atlantic City Expressway, the Garden State Parkway or for any other moving violation at any location, Schedules 1 and 2 shall be consulted for identification of the specific misconduct committed and the determination of the appropriate number of insurance eligibility points to be assessed.

SECTION 3 - DEVIATIONS TO PRIVATE PASSENGER RATES BY TERRITORY[Click here to go to Rating Worksheet.](#)

Amounts shown in Section 1 and 2, Annual Private Passenger Rates by Territory, are not base rates or initial premiums. They are starting points for the limits shown and must be adjusted by one or more deviation factors as described below. Deviations may include tier factors, offsets, certain recoupment surcharges, statewide rate change percentages, etc.

Base rate is defined as the territory rate multiplied by the total deviation factor.

Initial premium is defined as territory rate adjusted by the total deviation factor and by the selected limit and/or deductible factor. For comprehensive and collision it also includes adjustment by the symbol and model year relativity.

When applying more than one deviation, deviations must be multiplied by each other and rounded to four (4) decimal positions before being applied to the territory rates.

To determine the final rate for a coverage, apply deviations shown below and continue rating as indicated in Section 7, Rating Steps.

SECTION 5a - PRIVATE PASSENGER PHYSICAL DAMAGE MODEL YEAR and SYMBOL RELATIVITIES**2011 CUSTOMIZATION RULE****2011 Symbols 01 to 70**

- 1) If customization is \$1,000 or more, add the total amount of customization to the mid-point cost new of the vehicle to develop the customized cost new amount. [GO TO MID POINT](#)
- 2) Apply the new amount to the cost new chart to determine the symbol.

2011 Symbols 71 to 75 & 98

- 1) If customization is \$5,000 or more, then do the following:
 - a) Develop symbol/model year factor by multiplying the symbol factor times the model year factor
[as shown under Section 5. Symbols.](#)
 - b) Round factor to 3 decimal places
 - c) Increase the factor developed in a) & b) above, by adding the each additional \$10,000 amount for each \$10,000 or fraction thereof. Click on link below to find these factors
